## Edited To Death:

*Death, Posthumous Harm, and Bioethics* James Stacey Taylor, 2012 *Death Posthumous Harm and Bioethics* offers a highly distinctive and original approach to the metaphysics of death and applies this approach to contemporary debates in bioethics that address end of life and post mortem issues Taylor defends the controversial Epicurean view that death is not a harm to the person who dies and the neo Epicurean thesis that persons cannot be affected by events that occur after their deaths and hence that posthumous harms and benefits are impossible He then extends this argument by asserting that the dead cannot be wronged finally presenting a defence of revisionary views concerning posthumous organ procurement

Cremation and the Archaeology of Death Jessica Cerezo-Román, Anna Wessman, Howard Williams, 2017-04-14 The fiery transformation of the dead is replete in our popular culture and Western modernity's death ways and yet it is increasingly evident how little this disposal method is understood by archaeologists and students of cognate disciplines in the humanities and social sciences In this regard the archaeological study of cremation has much to offer Cremation is a fascinating and widespread theme and entry point in the exploration of the variability of mortuary practices among past societies Seeking to challenge simplistic narratives of cremation in the past and present the studies in this volume seek to confront and explore the challenges of interpreting the variability of cremation by contending with complex networks of modern allusions and imaginings of cremations past and present and ongoing debates regarding how we identify and interpret cremation in the archaeological record Using a series of original case studies the book investigates the archaeological traces of cremation in a varied selection of prehistoric and historic contexts from the Mesolithic to the present in order to explore cremation from a practice oriented and historically situated perspective **Dionysus, Christ, and the Death of God, Volume 1** Giuseppe Fornari, 2020-09-01

**The Cult of Remembrance and the Black Death** Samuel Kline Cohn,1997-06-15 In his award winning study Death and Property in Siena historian Samuel K Cohn Jr used close analysis of last wills to chart transformations in mentalities over a six hundred year history Now in The Cult of Remembrance and the Black Death Cohn applies the same methodology to fashion a comparative history of six Italian city states Arezzo Florence Perugia Assisi Pisa and Siena showing the rise of a new Renaissance cult of remembrance In 1363 the Black Death devastated central Italy for the second time causing a detectable shift in notions of afterlife and patterns of charitable giving Throughout Tuscany and Umbria patricians and peasants alike abandoned the practice of dividing their bequests into small sums combining them instead into last gifts to enhance their fame and glory But this new cult of remembrance Cohn argues does not support Burckhardt s thesis of Renaissance individualism Instead the new piety grew in tandem with reverence for ancestors and a strong sense of family identity founded on the importance of male blood lines But rather than retreat into the religious pessimism of earlier times survivors of the plague would develop into a new generation of art patrons albeit one with a taste for distinctively cruder and more regimented forms of religious art From the supposed center of Renaissance culture Florence to the citadel of Franciscan devotion Assisi the widespread change of sentiment created a new demand for monumental burials testamentary commissions for art and other efforts to exert control over the living from beyond the grave

Jesus' Death in New Testament Thought Volume 2: Texts David A. Brondos,2018-04-25 Jesus Death in New Testament Thought is unlike anything written on the subject to date It represents a radical break with the traditional models or theories of atonement based on ideas such as penal substitution participation in Christ and the Christus Victor motif claiming that all of these ideas as commonly understood are foreign to New Testament thought On the basis of his analysis of second temple Jewish thought Brondos demonstrates that for Jews in antiquity what atoned for sins and led people to be declared righteous in God s sight was not sacrifice suffering or death in themselves but the renewed commitment to living in accordance with God s will which they manifested by means of their sacrificial offerings and at times their willingness to endure suffering and death out of faithfulness to that will According to the thought of Jesus first followers in accordance with a divine plan conceived of before the ages in Jesus God had sent his Son in order to establish around him a community of people fully committed to practicing the love justice solidarity and righteousness associated with God s will for all Jesus dedication to this task led to confrontation and conflict with the powers and authorities of his day who sought to silence him by having him put to death Because he stood firm and remained faithful to that task rather than backing down from it he was crucified on a

Roman cross Paradoxically however in this way he laid the basis for the existence of the community God had desired from the start stamping it forever as one to which no one could truly belong without assuming the same firm commitment to Jesus and everything for which he had lived and died Those who form part of this community living out of faith under Jesus as their risen Lord come to practice God's will as redefined through Jesus and on that basis are forgiven and accepted as righteous by God Thus by giving up his life out of love for others in faithfulness to the task his Father had given him Jesus has attained the redemption reconciliation cleansing and justification of those who now live under his lordship as members of the worldwide community of believers from all nations that God has established through him and his death in fulfillment of the promises that God had made of old to his people Israel In Volume 1 Brondos looks to the relevant texts from antiquity to trace the background and development of these ideas His argument will leave the reader with no doubt that Jesus first followers understood the salvific significance of his death or blood in the manner just outlined and therefore that the traditional interpretations of his death that have prevailed from patristic times to the present do not reflect faithfully their thought as we find it in the New Testament In Volume 2 Brondos examines the formulaic allusions to Jesus death that we find scattered throughout the New Testament and other early Christian writings so as to demonstrate that these are precisely the ideas that lie behind those allusions At the same time through his analysis of the writings of Melito of Sardis and Irenaeus of Lyons he provides clear evidence that by the late second century ideas that are foreign to those texts began to be read back into them with the result that the original understandings of Jesus death that had developed among his first followers came to be replaced by other understandings that run contrary to their thought In his Conclusion Brondos argues that only by rejecting the traditional models of atonement and returning to the New Testament teaching on this central doctrine can the Christian church respond effectively to the crisis it faces today and bring about the restoration of the type of communities envisioned by Jesus and his first followers

In his death Jesus the chief architect in the production of space in the Christian realm founds an alternative community that reorders space and creates a new reality for believers. This new community which dwells in this radical new space successfully resists the domination of oppressive regimes and mindsets such as the Roman Empire. Suffering is transformed here. Many recent biblical studies have utilized various methodologies and historical critical viewpoints which have been helpful. However drawing on theories of space and postcolonial approaches Dr Ajer breaks new ground in Johannine studies a new terrain that will yield much fruit. The new understandings of space provide a key with which we may unlock more of the mysteries of the Fourth Gospel as Ajer here demonstrates with powerful new discoveries and insights into John's Passion narrative.

**After Death?** David Edwards, 2001-01-08 Will anything of us survive after death? This is a central question when we ask what life means. All through history societies and their cultures in particular their religions and philosophies have guided and sustained people as they have approached death and as they have mourned. A more secular society has made these comforts less accessible. Many beliefs formerly advanced with some authority and believed with some assurance have become incredible to many. *After Death* offers a thought provoking analysis of past and present beliefs for those who want to think for themselves about the greatest uncertainty of life.

*So Long! Walt Whitman's Poetry of Death* Harold Aspiz, 2004 Through a close reading of *Leaves of Grass* its constituent poems particularly *Song of Myself* and Whitman's prose and letters Aspiz charts how the poet's exuberant celebration of life is a consequence of his central concern the ever presence of death and the prospect of an afterlife.

Sex, Death, and Sacrifice in Moche Religion and Visual Culture Steve Bourget, 2006-08-01 Raises the analysis of Moche iconography to a new level through an in depth study of visual representations of rituals involving sex death and sacrifice.
