Transformando la educación teológica Perry Shaw, 2018-10-31 Durante varias décadas ha existido preocupación sobre la necesidad de una mayor integración y de un significado contextual en el diseño curricular de la educación teológica Además ha habido una creciente concientización acerca del papel que juegan las escuelas teológicas en el fortalecimiento de la visión y la práctica misionera en las iglesias locales Desde 2008 el Seminario Bautista rabe en el Líbano ha estado involucrado en un experimento continuo sobre el diseño e implementación de un currículo integrado y contextualizado A partir del diseño de lecciones aprendidas en esta experiencia y del discurso más amplio que está teniendo lugar actualmente en la educación superior Transformando la educación teológica provee fundamentos teóricos y principios prácticos para el diseño de un currículo bien enfocado así como herramientas para un aprendizaje significativamente contextualizado en el aula La educación en tiempos de crisis: Alfonso Vargas Franco, 2021-09-30 Estos ensayos abordan diversos aspectos de la educación en tiempos de crisis cuando la pandemia ha obligado a los educadores a enfrentar la disrupción digital en su quehacer El texto propone una perspectiva teórica y pedagógica pluralista para encarar los desafíos que plantean las transformaciones sociales culturales y lingüísticas en la sociedad globalizada pero con énfasis en Colombia El giro digital constituye un punto de inflexión en los procesos de enseñanza y aprendizaje Por eso el autor reflexiona sobre las nuevas formas de leer y escribir exponiendo cómo los profesores pueden hacer de ellas un objeto de estudio para orientar su enseñanza y ayudar también a fortalecer el respeto en la comunicación y la ciudadanía democrática The texts included here address various aspects that have to do with education in times of crises especially when the pandemic has confronted teachers with digital disruption The work stands on

a theoretical and pedagogical point of view from which it is feasible to face the challenges posed by social cultural and linguistic transformation in a global society with a focus on Colombia The digital turn constitutes a turning point in the teaching and learning processes Therefore the author reflects on the new forms of reading and writing showing how teachers can transform them into a study object to guide their work and help strengthen both respect in communication and citizenship
