Spare the Rod Campbell F. Scribner,Bryan R. Warnick,2021-05-11

In *Spare the Rod* historian Campbell F Scribner and philosopher Bryan R Warnick think deeply about punishment and discipline practices in American schooling To delve into this controversial subject the authors carefully consider two major issues The first involves questions of meaning How have concepts of discipline and punishment in schools changed overtime What purposes are they supposed to serve And what can they tell us about our assumptions about education The second issue involves the justification of punishment and discipline in schools Are public school educators ever justified in punishing or disciplining students Are these things important for moral education Or are they fundamentally opposed to education If some form of punishment is justified in schools what ethical guidelines should direct its administration The authors argue that as schools have grown increasingly bureaucratic over the past century formalizing disciplinary systems and shifting from physical punishments to forms of spatial or structural punishment such as suspension school discipline has not only come to resemble the operation of prisons or policing but has grown increasingly integrated with those institutions These changes they argue disregard the unique status of schools as spaces of moral growth and community oversight and are incompatible with the developmental ethos of education What we need is a view of discipline and punishment that fits with the sort of moral community that schools should be

The Curse of Education (Classic Reprint) Harold Edward Gorst,2018-02-11 Excerpt from *The Curse of Education* Of course mistakes were often made through the stupidity of parents or from some other cause There are many such examples to be met with in the biographies of men who attained eminence in wholly different callings from those into which they were forced in their youth About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The End of Homework Etta Kralovec,John Buell,2001-08-01 Etta Kralovec and John Buell are educators who dared to challenge one of the most widely accepted practices in American schools Their provocative argument first published in this book featured in Time and Newsweek in numerous women s magazines on national radio and network television broadcasts was the first openly to challenge the gospel of the more homework the better Consider In 1901 homework was legally banned

in parts of the U S There are no studies showing that assigning homework before junior high school improves academic achievement Increasingly students and their parents are told that homework must take precedence over music lessons religious education and family and community activities As the homework load increases and studies show it is increasing these family priorities are neglected Homework is a great discriminator effectively allowing students whose families have to surge ahead of their classmates who may have less Backpacks are literally bone crushing sometimes weighing as much as the child Isn't it obvious we're overburdening our kids *Problems of Educational Readjustment* David Snedden, 2016-05-07
