Educating For Real:

Redefining Reality: My Vision for an Education Rooted in Real-World Experiences KHRITISH

SWARGIARY,2024-11-01 Education has always been at the heart of societal progress and individual fulfillment As I ventured through my own educational journey I observed an ongoing dissonance between academic knowledge and real life applications While the classroom introduced theories and concepts it often lacked the grounding in practical experiences that I believe is essential for preparing individuals to navigate the complexities of the modern world This realization inspired me to write this book not only to share my experiences and reflections but also to propose a new approach to education one that aligns closely with the realities of life work and personal growth Throughout my journey as an educator researcher and learner I have seen both the strengths and the limitations of our current education system I have witnessed students excelling in structured academic environments only to struggle when faced with the unpredictability of real world challenges Conversely I have seen individuals who may not fit traditional academic molds flourish when given the freedom to apply their unique skills and perspectives to meaningful tasks outside of classrooms These observations reinforced my belief that education should serve as a bridge to reality fostering not only intellectual development but also emotional ethical and practical growth This book is an exploration of what education could look like if it were reimaged to reflect life s complexities its demands and its nuances Each chapter delves into a core component of a real world education from fostering lifelong learning to teaching critical thinking cultivating empathy and embracing technology in a balanced manner My aim is not to discard the traditional structure of education but to reshape it infusing it with values and approaches that reflect the challenges responsibilities and opportunities students will encounter beyond the school walls In writing this book I have been mindful of the many voices that shape our understanding of education today teachers students parents researchers and policymakers I recognize that my perspective is just one of many but it is a voice informed by years of observing and participating in the educational process This book is an invitation to all who believe in the transformative power of education to rethink and reimagine our approach I hope it sparks dialogue inspires innovation and most importantly brings us closer to an education system that truly prepares students for life in all its dimensions *Report of the Commissioner of Education*

 particularly timely book given the high proportion of international students and staff in higher education Public health was
 the immediate concern when the Covid 19 pandemic struck in Asia then in Europe and other parts of the world The response
 of our education systems is no less vital Higher education has played a major role in responding to the pandemic and it must
 help shape a better more equitable and just post Covid 19 world This book explores the various responses of higher
 education to the pandemic across Europe and North America with contributions also from Africa Asia and South America The
 contributors write from the perspective of higher education leaders with institutional responsibility as well as from that of
 public authorities or specialists in specific aspects of higher education policy and practice Some contributions analyse how
 specific higher education institutions reacted while others reflect on the impact of Covid 19 on key issues such as
 internationalisation finance academic freedom and institutional autonomy inclusion and equality and public responsibility
 The book describes the various ways in which higher education is facing the Covid 19 pandemic It is designed to help
 universities specifically their staff and students as well as their partners contribute to a more sustainable and democratic
 future
