[The State of Global Education](#) Brad Maguth, Jeremy Hilburn, 2015-04-10 A battle is being waged in classrooms and capitals around the world over the goals and objectives of the future of global education While there is growing research in the area of global education much remains to be uncovered challenged and learned through sound empirical research and conceptual explorations What type of global citizens will schools promote What types of policies programs and instructional practices best promote effective global citizenship Will global education curricula advance an unwavering loyalty to neoliberal ideologies and interests over the strengthening of human rights and the environmental health of our planet This volume presents a series of research studies and innovative instructional practices centered on advancing global learning opportunities and literacies The authors in this volume initiate a much needed conversation on ways students in multiple contexts can and should learn with the world and its people Part I addresses global education in theory with a particular focus on development intercultural competence and global citizenship

Part II addresses educational programs and practices that foster global learning and action to help build a better future for all citizens of our planet including experiential education university initiatives and conceptual approaches to teaching and learning This scholarship spans four continents in a multitude of educational contexts primary secondary and tertiary each with a focus on a different dimension of the possibilities and pitfalls in teaching about and with the world and its people

Contesting and Constructing International Perspectives in Global Education R. Reynolds,D. Bradbery,J. Brown,K. Carroll,D. Donnelly,K. Ferguson-Patrick,S. Macqueen,2015-02-27 This volume addresses the need for an international perspective on global education and provides alternate voices to the theme of global education The editors asked international educators in different contexts to indicate how their own experience of global education addresses the broad and contested concepts associated with this notion Following the lead of the internationally acknowledged authors from North America Europe Africa Australia and Asia perspectives were provided on a wide variety of contexts including tertiary education and teacher education various pedagogies for global education including digital pedagogies and curriculum development at school tertiary and community levels *Contesting and Constructing International Perspectives in Global Education* explores the tensions inherent in discussions of global education from a number of facets including spatial pedagogical temporal social and cultural and provides critical descriptive and values laden interpretations The book is divided into five sections Temporal and Spatial Views of Global Education Telling National Stories of Global Education Empowering Citizens for Global Education Deconstructing Global Education and Transforming Curricula for Global Education It is envisaged as a starting point for a stronger international conception of global education and a way to build a conversation for the future of global education in a neo liberal and less internationally confident time [The Routledge International Handbook of Life and Values Education in Asia](#) John Chi-Kin Lee,Kerry J Kennedy,2024-06-28 This Handbook provides a comprehensive look at the educational scope of life and values that characterize 21st century Asia as well as those values shared across cultures Some values are deeply resonant with the region s past while others reflect modernity and the new contexts in which Asian societies find themselves Exploring these values of different types and the way they are constructed in Eastern and Western contexts the contributors delve into the diversity of religious moral and social education to promote greater understanding across cultures While a range of values is identified here there is no single set of values that can be applied to all people in all contexts The time has long gone even for single societies when values can be imposed Yet this Handbook emphasizes both the extent and importance of values to individuals and their societies how they respond to these values may provide the key to better and more caring societies and to better lives for all Academics and teachers will find this Handbook resourceful because it raises important theoretical issues related to social values and their formation in distinctive contexts and provides novel insights into the diverse educational landscape in Asia Policymakers and educators will also find this text helpful in learning to think about new ways to improve the quality of people s lives **Globalization**

and English Education in Taiwan I-Chung Ke, 2021-11-29 Ke's book examines and reflects on English education in Taiwan from a global English perspective starting with a discussion on globalization and global Englishes. English education in Taiwan has gone through various major transformations since the intensification of globalization after the 1990s. On one hand, children start to learn English ever earlier while on the other hand the curriculum and materials in the vocational schools and at the tertiary level become diversified to meet various specific needs of English use. Internationalization of education has brought increasing numbers of international students and the roles of English in Taiwan are changing constantly with the dynamic environment from a foreign language to a lingua franca, medium of instruction and an international language. In his book the author documents the historical development of education and the roles of English in Taiwan before reviewing curriculum reforms and changes in the past half century. He then presents teachers' and students' perceptions on global Englishes. He proposes global Englishes pedagogies and his views on what changes can be made to textbooks, learning materials, entrance exams, translation and the linguistic environment. Practical suggestions to English education in Taiwan in the globalizing context serve as a tentative conclusion for the book. Offering insights into English education and its relationship with globalization, Ke's book will be useful to researchers and students in the fields of global Englishes and English education as well as offering practical pedagogical suggestions for English educators around the world. **Taking Teaching Seriously** Christopher Bjork, D. Kay Johnston, Heidi A. Ross, 2015-12-03 Taking Teaching Seriously expands and enriches discussions about teacher preparation in the United States. Its authors describe the unique contexts for teacher preparation offered by liberal arts institutions and analyze the effects of these programs on their graduates and on K12 schools. They emphasize that the goals and conditions for teacher preparation differ from larger public institutions in several key respects including supervisor-student relationships, philosophical foundations and approaches to clinical fieldwork. Taken together, the essays provide compelling evidence that educational studies programs in liberal arts colleges and universities constitute a vital component of the teacher education system in the United States. **The World is My Classroom** Joanne Benham Rennick, Michel Desjardins, 2013-12-06 International education and learn abroad programs have received heightened interest in the knowledge economy and universities are keen to create successful programs for students. The World Is My Classroom presents diverse perspectives on these experiential learning programs and ways of globalizing Canadian classrooms. Examining themes such as global education, global citizenship and service learning, it sheds light on current debates that are of concern for faculty members, administrators, international partners and students alike. The World Is My Classroom is the first book to examine pedagogical questions about the internationalization and globalization of higher education from an explicitly Canadian perspective. It features original reflections from students on their experiences in learn abroad programs as well as a foreword by Craig and Marc Kielburger, founders of Free the Children and Me to We, on the benefits of international learning experiences. Universities considering developing, enhancing and refining their learning

abroad programs as well as students considering these programs and experiences will find this an insightful and useful book
