**From the New Deal to the War on Schools** Daniel S. Moak,2022-05-10 In an era defined by political polarization both major U S parties have come to share a remarkably similar understanding of the education system as well as a set of punitive strategies for fixing it Combining an intellectual history of social policy with a sweeping history of the educational system Daniel S Moak looks beyond the rise of neoliberalism to find the origin of today s education woes in Great Society reforms In the wake of World War II a coalition of thinkers gained dominance in U S policymaking They identified educational opportunity as the ideal means of addressing racial and economic inequality by incorporating individuals into a free market economy The passage of the Elementary and Secondary Education Act ESEA in 1965 secured an expansive federal commitment to this goal However when social problems failed to improve the underlying logic led policymakers to hold schools responsible Moak documents how a vision of education as a panacea for society s flaws led us to turn away from redistributive economic policies and down the path to market based reforms No Child Left Behind mass school closures teacher layoffs and other policies that plague the public education system to this day
