Education And The Spiritual Life:

Education and the Spiritual Life Evelyn Underhill, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia, and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. *Education and Modern Spiritual Life* Rudolf Steiner, 1989-11 These lectures form one of the most comprehensive introductions to the philosophy of Waldorf education. See also *A Modern Art of Education: Spiritual, Life and Values Education for Children* John Chi-Kin Lee, 2024-07-19 This book offers various perspectives on children's spirituality and its relation to life and values education from diverse socio-cultural and educational contexts. It brings together a collection of select research articles that were published over a period of two decades (1999-2020) in the *International Journal of Children's Spirituality (IJCS)* to celebrate the journal's 25th anniversary. Featuring contributions by leading international scholars from U.K., U.S.A., Canada, Hong Kong, China, and Australia, this volume offers a multidisciplinary snapshot of children's spirituality and its relation to life and values education. It highlights the importance of socio-cultural and religious traditions as well as perspectives on religious education and the spirituality of children shaped by religious, cultural, and educational systems in specific societies and contexts. Chapters cover topics including the links between mirror neurons and human empathy and education, the relationship between spirituality and citizenship, the notion of inclusive spiritual education, and the perspectives of spiritual education through the conceptual lens of transcendence, raised awareness, and spiritualism, how outdoor play spaces can contribute to a child's spiritual development through enriching activities, and approaches to help nurture students' spiritual growth in their aspects of themselves, self/others, the environment, and with a Transcendent Other. This volume will be a key resource for researchers and postgraduate students interested in understanding children's spirituality and its implications for spiritual life and values education.

The Spiritual Ground of Education Rudolf Steiner, 2004-12 Through the introduction by Michael Howard and Steiner's ten lectures, this volume offers an account of the sources and purposes of art as well as a particularly helpful approach to art as a spiritual practice. So far from being dated, Steiner's account of art and its relation to spiritual experience is at least contemporary and probably ahead of its time. As this book ably shows, Steiner's insights concerning art, particularly when approached and practiced as a spiritual activity, might be exactly what art artists and contemporary culture urgently need. Robert McDermott from the foreword: Seeing his task as the renewal of the lost unity of science, art, and religion, Rudolf Steiner created in the worldview he called Anthroposophy a new cognitive, scientific, and religious art, the implications of which are recognized by such divergent artists as Wassily Kandinsky and Joseph Beuys. Art as Spiritual Activity includes a comprehensive, thought-provoking introduction of more than a hundred pages by Michael Howard, who writes: "The most fundamental issue for arts today is the

spiritual foundation of arts Steiner demonstrates that our individual creative activity is not solely a personal affair Our creations do not originate out of nowhere nor solely out of ourselves but from an objective world of spirit with which we are intimately related in the depths of our being He shows that our creations have significance beyond ourselves and beyond the recognition they receive works of art are vehicles of spiritual qualities In bringing these spiritual qualities into the sphere of human life the artist becomes responsible for the spiritual effects the work of art has on the artist other people and ultimately on human evolution Art as Spiritual Activity introduces a new way of thinking about looking at and creating art

Education in Search of the Spirit John Fentress Gardner,1996 Real education will always seek to strengthen what is best in the human soul its longing for the experience of spiritual truth that brings into the self an objective appreciation of the noble aspects of its own nature together with a subjective sense of real affinity with the rest of humanity the earth planet as a whole and the great cosmos above and beyond The premise of this book is that a human being is a being of body soul and spirit whose core is eternal spirit from which center one should strive to live From this perspective the aim of true education is to help our children activate this deepest center in themselves For this living intuitive thinking must be brought to life in a new way The organ for such thinking is the heart where will and feeling join in uniting self and world morality and truth love and action This book is in three parts The first poses the problem the second describes the Waldorf approach as a solution and the third deals with questions of special interest to parents and educators alike such as authority discipline and freedom the nature of genius and the question of cultural pluralism The first edition of this book was titled *The Experience of Knowledge* in response to a clear call for experience in education Certainly if the sole purpose of education is to acquire information learning becomes dry abstract and deadening To have meaningful consequence in a person s life coming to know must become an experience Too often however such experience is understood simply as doing field trips class projects and so on But doing if unconnected to the whole person is just activity To become true experience it must speak out of and toward a student s secret center the spirit Hence the author affirms that authentic education is always in search of the spirit

Reclaiming Goodness Hanan A. Alexander,2001-05-22 *Reclaiming Goodness* Education and the Spiritual Quest begins with the premise that sound models for achieving both spiritual fulfillment and the good life are lacking in contemporary culture Arguing that contemporary education is responsible for having abandoned spirituality and the cultivation of goodness in people Hanan A Alexander advances a definition of spirituality which acknowledges an integral connection to education *Reclaiming Goodness* charts a way to reintegrate ethical and spiritual values with the values of critical thought and reason Written in accessible and non technical prose it will be of interest to professional educators as well as to a wider audience

Education for Life J. Global Perspectives on Spirituality and Education Jacqueline Watson, Marian de Souza, Ann Trousdale, 2013-12-04 In recent decades and around the world much attention has been given to the role of spirituality in the education of children and young people While educationalists share many common goals and values in nurturing the spiritual lives of children and young people national and regional cultures religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research and the nature and impact of these differences is not yet understood This book brings together thinkers from around the globe and sets them the task of explaining how their research on children s spirituality and education has been shaped by the historical cultural religious and political contexts of the geographic region in which they work The book presents contributions in three sections Europe and Israel Australasia and The Americas and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education

International Handbook of Education for Spirituality, Care and Wellbeing Marian de Souza, LESLIE J. FRANCIS, James O'Higgins-Norman, Daniel G. Scott, 2009-10-13 Acknowledging and understanding spiritual formation is vital in contemporary education This book explores the dynamic

BEINGS Rudolf Steiner, 2022-05-04 Suppose you have seen an event have formed an idea about it and you say something that is not true in other words something that is a lie Then what flows from the object is correct and what flows from you is false and this collision is a terrible explosion and each time you do this you attach a gruesome being to your karma which you cannot get rid of again until you have made good what you lied about Rudolf Steiner In a previously untranslated volume of lectures Rudolf Steiner presents shattering insights regarding the interaction of human and spiritual beings He speaks for example about how perfumes can give certain spirits access to people on earth or how phantoms spectres and demons can be created through human deficiencies or even how the arts of architecture sculpture painting and music allow good or hideous entities to enter our world As he states Learning about the effects of spiritual beings is of much greater help than moral preaching A future humanity will know what it is creating through lies hypocrisy and slander The lectures are divided into two broad thematic groups the first relating to the inner path of knowledge and its relation to the yearly festivals and the second focusing on the work of elemental beings in our everyday world The 18 lectures are complemented with notes an index and an introduction by Christian von Arnim
