**Dewey, Russell, Whitehead** Brian Patrick Hendley, 2010-03-19 In *Philosophers as Educators* Brian Patrick Hendley argues that philosophers of education should reject their preoccupation with defining terms and analyzing concepts and embrace the philosophical task of constructing general theories of education Hendley discusses in detail the educational philosophies of John Dewey Bertrand Russell and Alfred North Whitehead He sees in these men excellent role models that contemporary philosophers might well follow Hendley believes that like these mentors philosophers should take a more active practical role in education Dewey and Russell ran their own schools and Whitehead served as a university administrator and as a member of many committees created to study education      Horrendous Death, Health, and Well-being Daniel Leviton, 1991 A treatment of the incidence of horrendous death both inadvertent and deliberate which views the phenomenon as the greatest public health problem of modern times The author argues that as man causes such deaths he can also learn to eliminate them by collective action      Bulletin of the Atomic Scientists , 1984-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world Perspectives on Nuclear War and Peace Education Robert Ehrlich,1987-09-22 This work provides an organized collection of views on nuclear war education a topic of great current concern It grew out of the 1986 Conference on Nuclear War Education sponsored by George Mason University The contributors represent the full spectrum of academic disciplines from the humanities to the sciences Through this diverse collection of essays the editor has tried to elucidate the important themes which underlie this curriculum Ilan Gur-Ze'ev and Education Alexandre Guilherme,2019-12-06 Ilan Gur Ze ev and Education Pedagogies of Transformation and Peace critically analyses and introduces the main ideas of Ilan Gur Ze ev reflecting on his continuing theoretical and practical relevance to the field of education This book offers an accessible higher level critical discussion on the thought of Ilan Gur Ze ev with an impressive breadth and contemporary focus The book focuses on Gur Ze ev s counter pedagogy project which brought him much attention and attempts to establish an alternative and non dogmatic form of education Gur Ze ev s views go against critical pedagogy and neoliberalism because while the former advocates achieving a utopia in which there is no oppression the latter defends the idea that wants and desires need to be satisfied through a process of marketisation This book brings to notice Gur Ze ev s concepts of counter education and diasporic education which seek to pursue the truth in everyday life rather than achieving a utopian goal or the promised land This unique and up to date monograph will be of great interest for researchers academics and postgraduate students in the fields of philosophy of education theory of education peace education Jewish education neoliberalism and sociology of education Global Peace and Anti-nuclear Movements Badruddin,2003 This Book Presents In Depth Observation And Analysis Of Global Peace Movement Organizations Both In Historical As Well As Contemporary Dimmension Crimes of Obedience Herbert C. Kelman,V. Lee Hamilton,1989-01-01 Sergeant William Calley s defense of his behavior in the My Lai massacre and the widespread public support for his argument that he was merely obeying orders from a superior and was not personally culpable led Herbert C Kelman and V Lee Hamilton to investigate the attitudes toward responsibility and authority that underlie crimes of obedience

not only in military circumstances like My Lai but as manifested in Watergate the Iran Contra scandal and the Kurt Waldheim affair Their book is an ardent plea for the right and obligation of citizens to resist illegal and immoral orders from above
