Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology s universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl s project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy s progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl s thought are here exfoliated Then the thought of the movement s classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology s geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project s new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement s vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names *Proceedings of the 2025 International Conference on Education Reform, Ideology and Politics (ERIP 2025)* Paulo Batista,Intakhab Alam Khan,Jun Chen,Tajularipin Bin Sulaiman,2025-08-03 This is an open access book 2025 International Conference on Education Reform Ideology and Politics ERIP 2025 will be held in Hangzhou China from April 11 to 13 2025 The conference aims to provide a high level academic exchange platform for scholars educators and experts in the field of ideology and politics from around the world to discuss the innovative development and challenges of educational reform and ideological and political education in the context of globalization The conference will focus on the reform of the education system the ideological and political education model in the new era the
