The Rise of Interactive Governance and Quasi-Markets S.A. Denters, Oscar van Heffen, J. Huisman, P.J. Klok, 2003-12-31 It has taken a long time to make this book Many initial drafts of the chapters published in this book were presented in November 2000 during a two day conference on Interactive governance towards a post parliamentary democracy held in Enschede The Netherlands The Netherlands Institute of Governance NIG sponsored the conference After this conference the organisers discussed the possibility of making a book on the basis of papers presented at this event In the end it was agreed that such a publication would indeed be worthwhile provided the initial papers were fundamentally revised Moreover it was agreed that also supplementary chapters should be included in order to strengthen the international comparative perspective On this basis authors of the conference papers chapters and envisioned new chapters were invited to re submit drafts The completion of the book however was unexpectedly halted by the tragic sudden death of our co editor and dear friend Oscar van Heffen In his lifetime he was the driving force behind this project Without his efforts insightful comments and helpful suggestions this book in its present form would never have been published As such we dedicate this volume to his memory the completion of the book being an honorary debt to our friend and his wife Mirjan

Education in Britain Ken Jones, 2016-01-27 In the decades after 1944 the four nations of Britain shared a common educational programme By 2015 this programme had fragmented the patterns of schooling and higher education in Wales Scotland Northern Ireland and England resembled each other less and less This new edition of the popular *Education in Britain* traces and explains this process of divergence as well as the arguments and conflicts that have accompanied it With a reach that extends from the primary school to the university and from culture to politics and economics Ken Jones explores the achievements and limits of post war reform and the egalitarian aspirations of the 1960s and 1970s He registers the impact of the Thatcherite revolution of the 1980s and of the New Labour governments which were its inheritors Turning to the twenty first century Jones tracks the educational consequences of devolution and austerity The result is a book which is more attentive than any other to the ever increasing diversity of education in Britain This comprehensive and accessible overview will have a wide appeal It will also be an invaluable resource on courses in educational studies teacher education and sociology

Black British Intellectuals and Education Paul Warmington, 2014-02-24 Ask any moderately interested Briton to name a black intellectual and chances are the response will be an American name Malcolm X or Barack Obama Toni Morrison or Cornel West Yet

Britain has its own robust black intellectual traditions and its own master teachers among them C L R James Claudia Jones Ambalavaner Sivanandan Stuart Hall and Paul Gilroy However while in the USA black public intellectuals are an embedded if often embattled feature of national life black British thinkers remain routinely marginalized Black British Intellectuals and Education counters this neglect by exploring histories of race education and social justice through the work of black British public intellectuals academics educators and campaigners The book provides a critical history of diverse currents in black British intellectual production from the eighteenth century through post war migration and into the post multicultural present focusing on the sometimes hidden impacts of black thinkers on education and social justice Firstly it argues that black British thinkers have helped fundamentally to shape educational policy practice and philosophy particularly in the post war period Secondly it suggests that education has been one of the key spaces in which the mass consciousness of being black and British has emerged and a key site in which black British intellectual positions have been defined and differentiated Chapters explore the early development of black British intellectual life from the slave narratives to the anti colonial movements of the early twentieth century how African Caribbean and Asian communities began to organize against racial inequalities in schooling in the post Windrush era of the 1950s and 60s how from out of these grassroots struggles black intellectuals and activists of the 1970s 80s and 90s developed radical critiques of education youth and structural racism the influence of multiculturalism black cultural studies and black feminism on education current developments in black British educational work including post racial approaches Critical Race Theory and black social conservatism Black British Intellectuals and Education will be of key relevance to undergraduates postgraduates and academics engaged in research on race ethnicity education social justice and cultural studies

Education in a Federal UK John Furlong,Ingrid Lunt,2019-10-23 Britain s two recent referenda on Brexit 2016 and on Scottish independence 2014 have raised in the public mind fundamental questions about the future of the UK It seems that for the first time the public the media and the political elite have woken up to the fact that in different parts of the UK there are different histories different aspirations and different imagined futures in relation to a whole range of vitally important political issues But what the public debate often fails to recognise is that in many areas of public life perhaps especially education the UK is already a federal state and in key respects has been so for many years The aim of this volume is therefore to take stock to try and capture what the current state of educational policy and practice is across the whole of the UK This has been achieved by commissioning two different papers from each of the four countries Wales Scotland Northern Ireland and England The first is an overview exploring the distinctive history principles and current policies of each country The second paper has been specifically chosen as a case study of a key policy that highlights the distinctiveness of each country the Foundation Phase for Wales assessment policy in Scotland shared education initiatives in Northern Ireland and higher education policy in England Taken together these eight papers give an important insight into the complexities of educational policy and practice across the whole of the UK today This volume was originally published as a special issue of Oxford Review of Education
