Education Without Opportunity Education:

Education Policy and Equal Opportunity in Japan Akito Okada, 2011-12-01 In many societies today educational aims or goals are commonly characterized in terms of equality equal opportunity equal access or equal rights the underlying assumption being that equality in some form is an intelligible and sensible educational ideal Yet there are different views and lively debates about what sort of equality should be pursued in particular the issue of equality of educational opportunity has served as justification for much of the postwar restructuring of educational systems around the world The author explores different interpretations of the concept of equality of educational opportunity in Japan especially as applied to post World War II educational policies By focusing on the positions taken by key actors such as the major political parties central administrative bodies teachers unions and scholars he describes how their concepts have developed over time and in what way they relate to the making of educational policy especially in light of Japan's falling birthrate and aging society

Challenges and Opportunities of National Education Policy 2020 Before Higher Education Dr. Chetana V. Donglikar, Dr. Rajabhau C. Korde, 2023-04-20 To improve the country's educational system and provide a blueprint for the future the government of India has come up with National Education Policy 2020 The NEP 2020 was approved by the Indian cabinet on July 29 2020 NEP 2020 suggests reforms in India's schools and higher education National Education Policy 2020 emphasizes the use and integration of technology in school and higher education that will enable India to meet the requirements of quality education in line with the SDGs in the 21st century This paper is based on secondary data and highlights technology's scope and significance in NEP 2020 The use of technology in educational institutions will help enhance pedagogical methods and student learning NEP 2020 recommends the creation of the National Educational Technology Forum NETF to facilitate open dialogue about how to use technology in school and higher education Equal Educational Opportunity: Education in Rural America United States. Parry,2021-12-30 Since its founding in 1801 African Americans have played an integral if too often overlooked role

in the history of the University of South Carolina Invisible No More seeks to recover that historical legacy and reveal the many ways that African Americans have shaped the development of the university The essays in this volume span the full sweep of the university s history from the era of slavery to Reconstruction Civil Rights to Black Power and Black Lives Matter This collection represents the most comprehensive examination of the long history and complex relationship between African Americans and the university Like the broader history of South Carolina the history of African Americans at the University of South Carolina is about more than their mere existence at the institution It is about how they molded the university into something greater than the sum of its parts Throughout the university s history Black students faculty and staff have pressured for greater equity and inclusion At various times they did so with the support of white allies other times in the face of massive resistance oftentimes there were both Between 1868 and 1877 the brief but extraordinary period of Reconstruction the University of South Carolina became the only state supported university in the former Confederacy to open its doors to students of all races This first desegregation which offered a glimpse of what was possible was dismantled and followed by nearly a century during which African American students were once again excluded from the campus In 1963 the second desegregation ended that long era of exclusion but was just the beginning of a new period of activism one that continues today Though African Americans have become increasingly visible on campus the goal of equity and inclusion a greater acceptance of African American students and a true appreciation of their experiences and contributions remains incomplete Invisible No More represents another contribution to this long struggle A foreword is provided by Valinda W Littlefield associate professor of history and African American studies at the University of South Carolina Henrie Monteith Treadwell research professor of community health and preventative medicine at Morehouse School of Medicine and one of the three African American students who desegregated the university in 1963 provides an afterword
