Quality and Qualities: Tensions in Education Reforms Clementina Acedo, Don Adams, Simona Popa, 2012-09-07 Quality and Qualities Tensions in Education Reforms is a provocative call for understanding and further exploring the elusive concept of quality in education Although education quality has acquired high priority in the past few decades the multiplicity of conceptualizations of quality also reflects the concerns and foci of multiple stakeholders Coming to an understanding of quality education involves careful analysis of the context from which any particular reform or program emerges and of the continuing struggle to define and achieve it Two main questions persist who benefits from particular policies focused on quality And what are the potential tradeoffs between a focus on quality equitable distribution of education and inclusion of various traditional expectations This book explores notions of quality as understood within various systems of national formal and nonformal education Also it considers the tensions that arise with the introduction of new standardized notions of quality in relation to international measures and educational reforms in developing countries In all cases specific national issues and concerns compete with global agendas Challenges to quality that are given particular attention in the book chapters include changing definitions of quality high expectations for education and issues with implementation and the introduction of English as a means to achieve quality in a globalizing world Special attention is also given to possible actions that support a more

equitable education without ignoring the requisite of quality The final chapter suggests three models choices for seeking higher quality and guiding the educational future of nations International Education Systems and Contemporary Education Reforms Adel T. Channing Arndt, Andy McKay, Finn Tarp, 2016 While the economic growth renaissance in sub Saharan Africa is widely recognized much less is known about progress in living conditions This book comprehensively evaluates trends in living conditions in 16 major sub Saharan African countries corresponding to nearly 75% of the total population A striking diversity of experience emerges While monetary indicators improved in many countries others are yet to succeed in channeling the benefits of economic growth into the pockets of the poor Some countries experienced little economic growth and saw little material progress for the poor At the same time the large majority of countries have made impressive progress in key non monetary indicators of wellbeing Overall the African growth renaissance earns two cheers but not three While gains in macroeconomic and political stability are real they are also fragile Growth on a per capita basis is much better than in the 1980s and 1990s yet not rapid compared with other developing regions Importantly from a pan African perspective key economies particularly Kenya Nigeria and South Africa are not among the better performers Looking forward realistic expectations are required The development process is almost always a long hard slog Nevertheless real and durable factors appear to be at play on the sub continent with positive implications for growth and poverty reduction in future *Inequality in Africa* E. Wayne Nafziger, 1988-08-25 This study of inequality in Africa rejects the orthodox approach of the World Bank and the International Monetary Fund which neglects income distribution and advocates greater external economic reliance

The Primary Sector in Economic Development (Routledge Revivals) Mats Lundahl, 2015-05-08 It is a major problem for less developed countries to make their primary sectors sufficiently profitable in order to be able to build up their manufacturing and service sectors This edited collection first published in 1985 examines the nature of the primary sector and its role in economic development Chapters consider problems of stagnation and income distribution in such countries as Chile and Brazil trade in national primary products and exports in Africa and the Middle East and reform and policies of development in countries such as Peru An interesting volume with an international scope this title will be of value to

T. S Gould,2014-09-25 This text examines education and its role in Third World development Amongst the areas covered are the private and public demand for education global patterns of education the geography of educational provision the school and the community and education and population growth The African Economy Steve Kayizzi-Mugerwa,2002-01-04 This book offers an in depth analysis of the current state of the African economy and makes constructive suggestions about its future direction The contributors argue that despite enduring challenges such as food security and employment creation Africa faces a brighter future in sustainable growth provided that governance and policy making are effectively employed to maintain peace achieve greater regional collaboration and encourage private sector competitiveness *Crisis, Adjustment and Growth in Uganda* Arne Bigsten,Steve Kayizzi-Mugerwa,1999-06-23 Uganda in the 1970s and early 1980s was one of Africa s more tragic economic stories Emerging from civil war it had to embark on reform in the early to mid 1980s from a position of severe political weakness In the study the effects of economic policy at the aggregate level are discussed in detail but snapshot empirical analyses of responses at the household level both urban and rural are also presented Uganda was for many years considered to be Africa s worst case its recent recovery thus provides hope for similar countries in the region Planning for Population Change W. T. S. Gould,R. Lawton,2023-10-02 Originally published in 1986 this book explores many important aspects of the relationship between population change and planning exploring the impact of population change on service provision and its impact on the policy making process In all countries whether their population is expanding ageing or stagnating population mobility is an important cause of economic and social development This book argues that there is a need for greater sensitivity about population change in policy making and service provision and suggests ways of achieving this Ten Millionaires and Ten Million Beggars Mwangi Wa. development in Kenya seeking to increase the reader's understanding of the political economy of that country. The author offers three contributions. He provides an estimate of income inequality in Kenya. He presents data on time allocation in Kenya which makes it possible to compare the distribution of work with the distribution of income. Controlled Open Economies David Bevan, Paul Collier, Jan Willem Gunning, 1990. Economic Development E. Wayne Nafziger, 2012-03-26. Nafziger explains the reasons for the recent fast growth of India, Poland, Brazil, China, and other Pacific Rim countries, and the slow yet essential growth for a turnaround of sub-Saharan Africa. The book is suitable for those with a background in economics principles. The fifth edition of the text, written by a scholar of developing countries, is replete with real world examples and up to date information. Nafziger discusses poverty, income inequality, hunger, unemployment, the environment, and carbon dioxide emissions, and the widening gap between rich, including middle income, and poor countries. Other new components include the rise and fall of models based on Russia, Japan, China, Taiwan, Korea, and North America; randomized experiments to assess aid; an exploration of whether information technology and mobile phones can provide poor countries with a shortcut to prosperity; and a discussion of how worldwide financial crises, debt, and trade and capital markets affect developing countries.
