Wiley, 2025-04-22 Access to educational resources has been a tool of liberation for Black Americans from the antebellum period to the present With this book Amber N Wiley emphasizes the value of education as a means for social equality Black Americans wanted the American Dream to apply to them and equal opportunity for quality education was at the forefront of making that dream a reality Model Schools in the Model City chronicles how Black Washingtonians used public education as a means of racial uplift in the face of entrenched white resistance and repeated assertions of white supremacy For Black Washingtonians it was the school building a permanent structure made of sturdy material that was the physical realization of Black liberation agency and the right to exist as citizens of the United States Furthermore it was the school building that stood as the litmus test to whether Black Washingtonians citizenship was perpetually guaranteed thus they fought with all the tools at their disposal to maintain access to quality education in the nation s capital In this book Wiley recounts the untold story of Black Washingtonians educational ambitions especially as they were manifested in the schools themselves *Urban Sprawl in Western Europe and the United States* Chang-Hee Christine Bae, 2017-03-02 Urban sprawl is one of the key planning issues today This book compares Western Europe and the USA focusing on anti sprawl policies The USA is known for its settlement patterns that emphasize low density suburban development and extreme automobile dependence whereas European countries emphasize higher densities pro transit policies and more compact urban growth Yet on closer inspection the differences are not as wide as first appears A key feature of the book is the attention given to France its experience is little known in the English speaking world The book concludes that both continents can offer each other useful insights and perhaps policy guidance
