Education And Youth Employment In Japan:

Education and Youth Employment in Japan Hidetoshi Katō, 1978 Education and Training in Japan Thomas P. Rohlen, Christopher Bjork, 1998 This collection written by Japanese and foreign scholars represents an inclusive cross section of the most important work in key areas of this field Topics include the impact of Japanese education and training on Japan's economy and culture the Japanese influence on the East Asian approach to education in comparison with the educational systems of Korea Taiwan Singapore and Hong Kong Japan's promotion of learning organizations and Knowledge workers for the Information Age **Resources in Education**, 2001 **Jobs for Youth/Des emplois pour les jeunes: Japan 2009** OECD, 2008-12-17 Presents a survey of the main barriers to employment for young people in Japan assessing the adequacy and effectiveness of existing measures to improve the transition from school to work and making recommendations for further action **Monthly Labor Review** United States. Bureau of Labor Statistics, 1980 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **Japan's Emerging Youth Policy** Tuukka Hannu Ilmari Toivonen, 2013 From the 1960s onwards Japan's rapid economic growth coincided with remarkably smooth transitions from school to work and with internationally low levels of youth unemployment However this changed dramatically in the 1990s and by the 2000s youth employment came to be recognized as a serious concern requiring an immediate response What shape did this response take Japan's Emerging Youth Policy is the first book to investigate in detail how the state experts the media as well as youth workers have reacted to the troubling rise of youth joblessness in early 21st century Japan The answer that emerges is as complex as it is fascinating but comprises two essential elements First instead of institutional carrots and sticks as seen in Europe actors belonging to mainstream Japan have deployed controversial labels such as NEET Not in Education Employment or Training to steer inactive youth into low wage jobs A second approach has been crafted by entrepreneurial youth support leaders that builds on what the author refers to as communities of recognition As illustrated in this book using evidence from real sites of youth support one such methodology consists of exploring the user i.e the support receiver whereby complex disadvantages family relationships and local employment contexts are skilfully negotiated It is this second dimension in Japan's response to youth exclusion that suggests sustainable internationally attractive solutions to the employment dilemmas that virtually all post industrial nations currently face but which none have yet seriously addressed Based on extensive fieldwork that draws on both sociological and policy science approaches this book will be welcomed by students scholars and practitioners in the fields of Japanese and East Asian studies comparative social policy youth sociology the sociology of social problems and social work Equality and Freedom in Education Brian Holmes, 2022-02-26 First published in 1985 Equality and Freedom in Education investigates the extent to which it is possible or desirable to provide equal opportunities in education regardless of age sex race language and social class Attempts to make such provision regularly attract the criticism that they remove the freedom of parents and

religious bodies to educate children in accordance with their particular wishes To understand this dilemma the book analyses the educational systems and practices in England and Wales France the USA the USSR China and Japan Information about each system is provided in accordance with a taxonomy developed by Professor Holmes for the International Bureau of Education in Geneva and widely accepted by Ministries of Education throughout the world Simplified diagrams show how school systems are organised and how children pass through the school system and essential statistical information taken from UNESCO sources is also provided The book will be of interest to students of education and sociology

School to Work Transition in Japan Kaori Okano,1993 This participant observation study presents the practice of school to work transition at two Japanese high schools and explains variations about the modal career trajectory of low achieving students drawing on Bourdieu's work It helps to explain the relationship between social values family ethos industry school and economic performance and the relatively low class consciousness in Japan It should be of interest to educationalists sociologists and labour relations specialists studying Japan

Investing in Youth: Japan OECD,2017-05-29 This report provides a detailed diagnosis of youth policies in the area of education training social and employment policies Its main focus is on disengaged or at risk of disengaged youth

Productivity, Investment in Human Capital and the Challenge of Youth Employment Pietro Manzella,2011-07-12 From an international and comparative perspective young people's access to the labour market is a complex issue with certain contradictory aspects reflecting the level of development of labour law and industrial relations in their respective countries In the most advanced economies there has been a steady increase in the age at which young people exit the educational system and enter the labour market giving rise to significant economic and social problems The increase in levels of educational attainment is associated in some cases with an alarming rate of unemployment among those with academic qualifications while employers encounter considerable difficulty in recruiting workers for unskilled and semi skilled positions The economies of developing countries on the other hand are characterized by different trends reminiscent of the early stages of modern labour law with the large scale exploitation of young workers and children many of whom join the flow of migrants towards the more highly developed regions of the world with the consequent risk of impoverishing human capital in the country of origin The ADAPT Labour Studies Book Series has in connection been set up with a view to achieving a better understanding of these and other issues in the field of Labour and Employment relations in a global dimension through an interdisciplinary and comparative approach

Labour Productivity, Investment in Human Capital and Youth Employment Roger Blanpain,W. Bromwich,2010-03-08 Unemployment levels are on the rise nearly everywhere and the rate is particularly high among young people If this trend is not reversed the potential long term economic and social damage is incalculable For this reason a particular urgency attended an international conference on the subject held in March 2009 at the Marco Biagi Foundation in

Modena Italy in the course of which specialists in labour law human resources management labour economics sociology education and statistics met to present and compare research This issue of the Bulletin of Comparative Labour Relations includes a selection of the papers presented at that conference Although the selected essays present findings on specific issues in particular countries the general applicability at the global level is evident Assessing measures taken to deal with youth unemployment in thirteen countries Italy Spain Russia Sweden Bulgaria Estonia Hungary Poland Israel Nigeria the United States China and Singapore twenty five leading authorities describe and analyse such aspects of the problem as the following vocational education and training quality of employment as well as quantity links between educational institutions and local national and international enterprises consultation and co operation between employers associations and trade unions job security vs employment security funding for postgraduate programmes internships and on the job vocational training career development for future managers safeguards for workers in a framework of flexibility labour market pressure from unskilled immigrant workers earn as you learn schemes work in the informal economy and the rationale behind the phasing out of passive labour market measures for school leavers such as unemployment benefits

The Youth Amelia Khatri, AI, 2025-01-02 The Youth presents a comprehensive exploration of young people's evolving roles throughout human history examining how different societies have shaped and responded to youth experiences from ancient times to the present day The book weaves together archaeological evidence historical documents and contemporary research to demonstrate how youth has served as both a biological phase and a powerful catalyst for societal transformation across cultures and eras Through carefully structured chapters the work traces fascinating developments in youth history from ancient coming of age rituals to medieval apprenticeships and modern educational systems One particularly compelling aspect is the examination of youth movements including the influential student protests of the 1960s and contemporary digital activism showing how young people have consistently driven cultural and social change The book's interdisciplinary approach combines traditional historical analysis with modern social science methodologies offering readers a rich understanding of youth development patterns across different societies The research stands out for its global perspective examining both Western and non Western approaches to youth development while acknowledging historical documentation limitations Using accessible language and engaging case studies the book connects historical patterns to current youth challenges including unemployment political engagement and mental health issues This makes it particularly valuable for educators policy makers and anyone interested in understanding how past approaches to youth development continue to influence contemporary debates and policies

Investing in Youth: Slovenia OECD, 2021-06-21 The series Investing in Youth builds on the expertise of the OECD on youth employment social policy and skills It covers both OECD countries and key emerging economies The report on Slovenia presents new results from a comprehensive analysis of the situation of young people in Slovenia exploiting various sources of survey based and administrative data
