World Nick Devas, 2014-10-14 Poverty and governance are both issues high on the agenda of international agencies and governments in the South With urban areas accounting for a steadily growing share of the world's poor people an international team of researchers focused their attention on the hitherto little studied relationship between urban governance and urban poverty In their timely and in depth examination of ten cities in Africa Asia and Latin America they demonstrate that in many countries the global trends towards decentralization and democratization offer new opportunities for the poor to have an influence on the decisions that affect them They also show how that influence depends on the nature of those democratic arrangements and decision making processes at the local level as well as on the ability of the poor to organize The study involved interviews with key actors within and outside city governments discussions with poverty groups community organizations and non governmental organizations NGOs as well as analyses of data on poverty services and finance This book presents insights conclusions and practical examples that are of relevance for other cities It outlines policy implications for national and local governments NGOs and donor agencies and highlights ways in which poor people can use their voice to influence the various institutions of city governance **Fragile Urban Governance** Gangadhar

Jha, 2018-06-13 Urbanization is giving rise to a vibrant and volatile urban India The urban local self government ULSG is struggling to provide efficient effective inclusive and responsive urban services Most ULSGs are too fragile to perform the mandated functions for enhancing the quality of life and making cities and towns livable The book traces evolution of ULSGs its decline after Independence and steps taken to strengthen them especially through the big bang decentralization initiative of 1992 for their empowerment by enacting the 74th Constitution Amendment Act 74th CAA Analyzing facets of the decentralization initiative views of two review Commissions policy responses to it and processes for implementation of constitutional provisions it alludes to conspicuous gaps at three levels such as i gaps and deficiencies in the 74th CAA ii gaps in the post 74th CAA municipal Acts that were required to conform to the constitutional provisions and iii gaps due to half hearted implementation of even the mandatory constitutional provisions Empowerment and strengthening of ULSG being in the nature of an imperative it explores plausible options within the constitutional autonomy of states Empowerment denotes authority power and clarity in municipal functional and fiscal domain Therefore it also specifies experiential based rational framework and a strategy for strengthening ULSGs that must look beyond the existing predilection for mere training It fills an existing void in ULSG literature on the subject Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka **Second International Handbook of Urban Education** William T.

Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education Each chapter reflects contemporary cutting edge issues in urban education as defined by their local context One important theme that runs throughout this handbook is how urban is defined and under what conditions the marginalized are served by the schools they

attend Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations This second handbook focuses on factors such as social stratification segmentation segregation racialization urbanization class formation and maintenance and patriarchy The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe Researchers will find an analysis framework that will make the current practice and outcomes of urban education and their alternatives more transparent and in turn this will lead to solutions that can help improve the life options for students historically underserved by urban schools
