*Opposing Viewpoints*, 2011      *Practicing the Application of Health Education Skills and Competencies* Marilyn Morrow, Bette B. Keyser, Roberta Ogletree, Kathleen Doyle, 1997 Health Sciences Nutrition      **American Educational History** William H. Jeynes, 2007-01-18 American Educational History School Society and the Common Good is an up to date contemporary examination of historical trends that have helped shape schools and education in the United States Author William H Jeynes places a strong emphasis on recent history most notably post World War II issues such as the role of technology the standards movement affirmative action bilingual education undocumented immigrants school choice and much more      *Hermeneutics - Ethics - Education* Andrzej Wiercinski, 2015 This book confronts the challenges that hermeneutics brings to ethics and education by thematizing the critical influence which ethics and contemporary educational theory and practice have on the self understanding of philosophical hermeneutics In the hermeneutic spirit of commitment to cultivating lifelong habits of critical thinking moral reflection and articulate expression the book presents many voices that illuminate a rich cultural diversity with the profound hope of nurturing the full flourishing of human beings The hermeneutics of education calls for diverse ways of thinking about education which deeply cares for the common good of individuals communities and nations This diversity promotes a genuine interest in different approaches to the event Ereignis of education Series International Studies in Hermeneutics and Phenomenology Vol 8 Subject Hermeneutics Ethics Education

**Critical Intercultural Perspectives on Higher Education** Fred Dervin, 2024-12-13 This edited volume interrogates the meanings of internationalization in higher education in different political economic contexts Written by multidisciplinary scholars based in different parts of the world China Finland France Korea Morocco Saudi Arabia Singapore Spain UK USA

the chapters allow the reader to critically listen in on glocalized global local discourses of internationalization in education meanings epistemologies critiques and current research policies The volume aims to support students and scholars in clarifying for themselves and others what internationalization might mean and entail using alternative ways of characterizing critiquing and unsettling internationalization The authors adopt critical intercultural perspectives in their chapters based for example on humanistic entry points the continuum of ideological specificities commonalities while balancing self other acceptance rejection questioning the taken for granted and offering some decolonial analyses and reflections The volume thus aims to better understand and nuance the polysemic and glocalized nature of internationalization in order to strengthen international cooperation in education research and to provide more opportunities to come together to recognize and support for example multiple perspectives experiences and knowledge Scholars students and education professionals interested in higher education intercultural studies and topics of internationalization and globalization will greatly benefit from the book

*International Perspectives on Education Policy* Ralph Rotte, 2006 This volume aims to provide an interdisciplinary and pragmatic policy oriented contribution to the current debate about educational reform It assembles articles by experts on education and educational policy from various scientific disciplines and professional backgrounds Based on a section considering general pedagogical economic political and methodological aspects a number of country specific contributions cast some light on the differing frameworks approaches and experiences in recent education policy and education reform in number of countries of the western world      **Research in Education**, 1971-12      Environmental Education and Advocacy

Edward A. Johnson, Michael J. Mappin, 2005-03-03 Environmental education has often blurred the distinction between ecological science and environmental advocacy Growing public awareness of environmental problems and desire for action may be contributing to this blurring There is a need to clarify the distinction between the role of ecological science and the role of social and political values for the environment within environmental education This book addresses this need by examining the changing perspectives of ecology in education and the changing perspectives of education in environmental education Guidelines are provided for assessing the science and education perspectives within environmental education along with suggested frameworks for development of programs and resources that integrate current science education and action This book will be of interest to environmental educators ecologists interested in environmental education and curriculum and resource developers      **Teaching controversial issues in Secondary Education** Delfín

Ortega-Sánchez, Esther Sanz De La Cal, Jaime Ibáñez Quintana, Eduardo Encabo-Fernández, 2025-04-01 Despite the difficulties in defining the concept of controversial issue it can be stated that it has general characteristics based on the integration of conflicting values and interests on the presence of individual or social sensitivities and on the potential generation of emotions Its approach leads to multiple solutions open to discussion such as climate change terrorism or war From the theoretical principles of education for global citizenship the development and acquisition of social competences aimed at

providing solutions to contemporary controversial issues is expected The didactic treatment of these contents favors the contrast of argued perspectives elective rationality in decision making in controversial or problematic contexts and social commitment as an inherent part of the democratic process
