**Women's History: Britain, 1850-1945** June Purvis, 2008-01-28 *Women's History Britain 1850 1945* introduces the main themes and debates of feminist history during this period of change and brings together the findings of new research. It examines the suffrage movement, race and empire, industrialisation, the impact of war, and women's literature. Specialists in their own fields have each written a chapter on a key aspect of women's lives, including health, the family, education, sexuality, work, and politics. Each contribution provides an overview of the main issues and debates within each area and offers suggestions for further reading. It not only provides an invaluable introduction to every aspect of women's participation in the political, social, and economic history of Britain but also brings the reader up to date with current historical thinking on the study of women's history itself.

**The Education Papers** Dale Spender, 2013-04-15 First published in 1987, this volume makes available key documents giving the contemporary reader a valuable record of women's struggle for education in the nineteenth and early twentieth centuries. All of the women in this collection achieved significant reforms or struggled to change popular prejudices about women's education.

*The Schooling of Girls in Britain and Ireland, 1800-1900* Jane McDermid, 2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century. Previous books about Britain invariably focus on England, and such British studies tend not to include Ireland despite its incorporation into the Union in 1801. *The Schooling of Girls in Britain and Ireland 1800-1900* presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period, with the emphasis on the interaction of gender, social class, religion, and nationality across the UK. It reveals similarities as well as differences between both the social classes and the constituent parts of the Union, including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities. What they had in common with middle class girls was that they were to be educated for the good of others. This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters, confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes.

*Women and The Magna Carta* Jocelyne Scutt, 2016-04-30 On the eight hundredth anniversary of the Magna Carta, *Women and the Magna Carta* investigates what the charter meant for women's rights and freedoms from an historical and legal perspective.

*British Female Emigration Societies and the New World, 1860-1914* Marie Ruiz, 2017-07-11 This book focuses on the departure of Britain's surplus women to Australia and New Zealand, organised by Victorian British female emigration societies. Starting with an analysis of the surplus of women, it then explores the philanthropic nature of the organisations: the Female Middle Class Emigration Society, the Women's Emigration Society, the British Women's Emigration Association, and the Church Emigration Society. The study of the strict selection of distressed gentlewomen emigrants is followed by an analysis of their marketing value and an appraisal of women's imperialism. Finally, this work shows that the female emigrants under study partook in the

consolidation of the colonial middle class      **Policy for a Change** Susan Yeandle, 2009 Why is it so hard to turn girls success at school into success in the labour market This book explores women s employment at the start of the 21st century in particular identifying aspects of women s labour market situation which remain poorly understood and challenging much recieved wisdom about women and work The contributors examine pervasive myths about women in employment which have influenced policy and explore a number of theoretical puzzles and problems which persist despite attempts to tackle them

BOOK JACKET      **Mary Sumner** Sue Anderson-Faithful, 2018-01-01 The founder and president of the Mothers Union one of the first and largest women s organisations Mary Sumner 1828 1921 was an influential educator and a force to be reckoned with in the Church of England of the late nineteenth and early twentieth centuries Using the analytical tools of the sociologist Pierre Bourdieu Sue Anderson Faithful locates Mary Sumner s life and thought against social and religious networks in which she was restricted by gender yet privileged by class and proximity to distinguished individuals This dichotomy is key to understanding the achievements of a woman who both replicated and shaped Victorian attitudes to women s roles in society To Mary Sumner mission and education meant the propagation of religious knowledge through progressive pedagogy Her activism was intended to promote social reform at home and nurture the growth of the British Empire with mothers wielding their political power as educators of future citizens The symbiotic relationship between Church and State concentrated power in the hands of a ruling class with which Mary Sumner identified and which she supported In her view the legitimacy of national and imperial rule was intertwined with the moral force of Anglicanism Sue Anderson Faithful interprets Mary Sumner s lifelong work in the light of these relationships contrasting her assertion of personal agency and an empowering discourse of motherhood with her simultaneous reinforcement of patriarchy and class privilege      **Women in Science** Ruth Watts, 2013-05-13 The first book of its kind to provide a full and comprehensive historical grounding of the contemporary issues of gender and women in science Women in Science includes a detailed survey of the history behind the popular subject and engages the reader with a theoretical and informed understanding with significant issues like science and race gender and technology and masculinity It moves beyond the historical work on women and science by avoiding focusing on individual women scientists

**Steely-Eyed Athena** David Neal Greenwood, 2022-01-31 This monograph uses the life and work of groundbreaking female classicist Wilmer Cave Wright to examine several questions about the rise of women in that discipline First what went into the creation of a classics scholar under circumstances that would seem to preclude that Second why was it arguably Wright's time in Chicago that was her formative experience and period Third why did Wright want so desperately to leave Bryn Mawr and then stay and pour herself into her students Fourth through what lens did she approach the evidence of classical literature and did it make a difference Fifth how did Wright survive the Thomas years at Bryn Mawr Sixth why did she abruptly abandon her long term

project on Libanius of Antioch Seventh what led her to suddenly switch from classical Greek literature to translating medieval Latin medical texts Wright s journey from Mason College to Girton College Cambridge the University of Chicago and Bryn Mawr College is placed into historical context Throughout the significance of Wright s work particularly on the life of the Emperor Julian is assessed Feminism June Hannam,2014-06-11 The sheer number of publications on Feminism make it difficult for students who approach the subject for the first time to gain a sense of what the main issues and interpretations are This book addresses this by offering students an overview of feminism and its history across several countries and time periods along with an annotated guide to direct them in their further reading Feminism by June Hannam provides comprehensive coverage right from how feminists began to write the history of their movement as early as the late nineteenth century to the impact feminism has had on higher education The text also looks in depth at propaganda and the cult of the heroine in suffrage campaigning and how first wave feminists constructed their own history which then affected future generations of historians and activists
