**Writing the Story of Texas** Patrick L. Cox, Kenneth E. Hendrickson, Jr., 2013-03-01 The history of the Lone Star state is a narrative dominated by larger than life personalities and often contentious legends presenting interesting challenges for historians Perhaps for this reason Texas has produced a cadre of revered historians who have had a significant impact on the preservation some would argue creation of our state's past An anthology of biographical essays Writing the Story of Texas pays tribute to the scholars who shaped our understanding of Texas's past and ultimately the Texan identity Edited by esteemed historians Patrick Cox and Kenneth Hendrickson this collection includes insightful cross generational examinations of pivotal individuals who interpreted our history On these pages the contributors chart the progression from Eugene C Barker's groundbreaking research to his public confrontations with Texas political leaders and his fellow historians They look at Walter Prescott Webb's fundamental innovative vision as a promoter of the past and Ruthe Winegarten's efforts to shine the spotlight on minorities and women who made history across the state Other essayists explore Llerena Friend delving into an ambitious study of Sam Houston Charles Ramsdell courageously addressing delicate issues such as racism and launching his controversial examination of Reconstruction in Texas Robert Cotner an Ohio born product of the Ivy League bringing a fresh perspective to the field and Robert Maxwell engaged in early work in environmental history

**The Ideology of Competition in School Music** Sean Robert Powell, 2023 The Ideology of Competition in School Music explores competition as a structuring force in school music and provides critiques of that system from multiple philosophical and theoretical perspectives Competition is seen by many music teachers students and supporters as natural and inevitable a taken for granted aspect of music education or an irresistible force rather than a choice This book uncovers this ideological nature of competition and examines its effect on student learning teacher agency and equity within music education It considers ways in which music educators might reconsider the role of competition in their teaching practice and offers alternative frameworks for organizing school music In this book author Sean Robert Powell views competition as a microcosm of the wider neoliberal capitalist society in which subjects are interpellated in an antagonistic competitive field as market logic dictates a system of accountability reduction and audit culture Music teachers students and education administrators consciously and unconsciously reinforce replicate and sustain the competitive structure even if they do so while expressing a cynical disavowal Powell considers competition broadly including for example formal competitions between schools in which ensembles are given numerical scores and ranked festivals in which groups are given ratings based on pre given criteria

state regional and national honor ensembles hierarchical arrangements within school music programs or simply the pursuit of social prestige reputation and ever higher performance standards Although the book provides examples from the competitive landscape of school music in the United States and especially Texas considered a hyper example of competitive culture Powell s analyses and discussions are relevant to readers in any context around the world Although the degree to which competitive achievement as an explicitly stated aim of instruction varies from program to program and location to location the realism of neoliberal capitalism and its effect on all aspects of education is a global phenomenon *The Rise of American High School Sports and the Search for Control* Robert Pruter,2013-08-29 Nearly half of all American high school students participate in sports teams With a total of 7 6 million participants as of 2008 this makes the high school sports program in America the largest organized sports program in the world Pruter s work traces the history of high school sports from the student led athletic clubs of the 1800s through to the establishment of educator control of high school sports under a national federation by the 1930s Pruter s research serves not only to highlight this rich history but also to provide new perspectives on how high school sports became the arena by which Americans fought for some of the most contentious issues in society such as race immigration and Americanization gender roles religious conflict the role of the military in democracy and the commercial exploitation of our youth Texas High School Football Dynasties Rick Sherrod,2013-08-06 Since the first annual state football champion was crowned in 1920 Texas has never been the same Today millions of Texans gather in stadiums across the Lone Star State eagerly awaiting that magical mid to late December moment when the season comes to its dramatic conclusion Of the 391 high schools reaching the championship matchup only a handful 26 have won the title four times or more laying claim to the coveted moniker dynasty From Waco High School s fourth title win in 1927 to Stamford s fourth official win in 2012 writer and lifelong football enthusiast Rick Sherrod traces the best of the best in this pigskin empire across ninety three action packed seasons **Three Men in Texas** Ronnie Dugger,2010-06-28 This book is a tribute to an incomparable triumvirate One was a naturalist one a historian and one a chronicler but each of them was each of these The manly love between them a handsome thing in times and places blighted by great ugliness and banality shone from them into their friends and contemporaries and they shared themselves freely with those younger than they who went to them wishing to learn from them Most of this collection of writing by friends of Roy Bedichek Walter Prescott Webb and J Frank Dobie originally appeared in special editions of the Texas Observer devoted to each of the three men Some pieces were however written expressly for this volume The Roy Bedichek Family Letters Roy Bedichek,Jane Gracy Bedichek,1998 Roy Bedichek 1878 1959 author of *Adventures with a Texas Naturalist* loved both reading and writing letters His daughter in law Jane Gracy Bedichek offers a selection of the Bedichek family correspondences which highlight Roy s talent for eloquently describing the natural world and additionally his entire family s rather remarkable epistolary skills Annotation copyrighted by Book News Inc Portland OR *Legendary Texas Storytellers* Jim Gramon,2002-10-29 Storytelling is alive and well in Texas

He offers commentary from Olympians such as David Torrence and Shannon Rowbury amongst others. Along the way, the book addresses the following topics: How cross country began in England, How the sport found its way to American colleges and universities, The birth of the International Cross Country Championships, All the close events including the 2012 race between Molly Huddle and Sara Hall at the US National Cross Country Championship, And so much more.

*Karankaway Country* Roy Bedichek, 2010-06-28 Roy Bedichek spent most of his life working in the educational field in Texas, but his main interest was always the great outdoors. His first book, *Adventures with a Texas Naturalist*, was published when he was almost seventy, and his second, *Karankaway Country*, appeared three years later. Both were the result of a lifetime of exploring, a beloved land of searching, observation, of discussion, debate, wide reading, and reflection. Long out of print, *Karankaway Country* is now available in a handsome second edition with a new Foreword by W. W. Newcomb Jr. *Karankaway Country* focuses on the natural history of a strip of coastal prairie lying roughly between Corpus Christi and Galveston and once inhabited by the poorly known and much maligned Karankawa Indians. It serves as a home base for an exposition of Bedichek's philosophy, providing a convenient local setting for richly tailored essays on wildlife, soil, human skin, and a variety of other topics suggested by a wide-ranging intellect. Bedichek's philosophy, if it can be reduced to a few words, is essentially that humans must learn to live on peaceful and conciliatory terms with our natural environment.
