Educational Research And Evaluation Methods:

Educational Research and Evaluation Methods John William Asher, 1976-01-01 *Educational Research and Evaluation Methods* J. William Asher, 1976-01-01 *Evaluation Methods in Research* Judith Bennett, 2003-12-01 Intended as a guide for those wishing to draw on research techniques in order to inform the planning and undertaking of multi method evaluation studies of educational initiatives While it is possible to undertake evaluation without reference to research the formal evaluation of education initiatives is enhanced by the use of research approaches to gather information on the nature of the developments that have taken place and or merit and worth of the initiatives In a climate where the question Does it work is being asked with increasing frequency this book will consider ways of designing multi method evaluation studies to help answer this question *Educational Research and Evaluation* Robert G. Burgess, 1993 Few books consider the relationship of research and evaluation to policy and practice but this book opens up debates in that field It examines the major processes the problems of conducting research and looks at how they can be overcome **Research and Evaluation Methods in Special Education** Donna M. Mertens, 2003-09-10 In an era when government policy emphasizes scientifically based research No Child Left Behind this book provides an important resource in understanding what this means Diane Browder Snyder Distinguished Professor of Special Education University of North Carolina Charlotte This is a superb book I learned by reading it and I found myself rethinking some of my own thinking about research on individuals with disabilities James E Ysseldyke Professor University of Minnesota Learn how research can lead to improved skills and contribute to successful lives When face to face with the challenge of providing special needs children with a quality education teachers and other educators are often met with the dilemma of inadequate research on the topic or they are uninformed that a framework for critically analyzing and conducting special education research exists Research based practice is a powerful tool for success as it can inform educators and others about educational strategies that work Research and Evaluation Methods in Special Education is intended to enable educators to design conduct and report research and evaluation in a way that transforms special education by addressing the needs of persons with disabilities as heterogeneous cultural groups This text provides practical guidance for Planning research and evaluation Addressing the implications of legislation and program evaluation Using empirically based data for decision making in a variety of settings Assessing additional research needs in areas such as standards based reforms personnel development family involvement and new and developing topics in special education Using quantitative research methods including casual comparative correlational single case and survey research Using qualitative methods including identification and selection of research participants information collection and more This excellent resource provides an approach to research and evaluation that helps educators better understand and address the needs of students with various disabilities including blindness mental retardation deafness learning disabilities and more
