Programmed Instruction in Online Learning Reinaldo L. Canton, 2007 Web based offerings in many academic disciplines are redefining the educational landscape In this book Reinaldo Canton assesses the importance of learner activity in computer programmed instruction This research explores the practical relation between the learner's behavior and the method of delivery of lesson content Programmed Instruction in Online Learning is a timely and important book as online instruction becomes increasingly predominant in the education environment *Educational Psychology* Steven R. Wininger, Antony D. Norman, Bruce W. Tuckman (deceased), 2024-12-18 Educational Psychology distills the latest research into actionable steps guiding students in building solid evidence based teaching plans as they prepare to enter the classroom Employing a meta cognitive approach it encourages them to think about their dual role as both teachers and learners understanding not just what to do in the classroom but the why behind it Motivation is a central theme with the authors providing a practical framework to help teachers enhance student motivation and connect it to key themes and concepts throughout the text Rather than taking an encyclopedic approach the authors group chapters by topic enabling readers to remember concepts and connect best practices to big ideas in educational psychology By blending scholarship with application through vignettes examples case studies and practical teaching strategies this text equips students to be both methodical and creative in their future classrooms **Resources in Education**, 2000 **Teacher Motivation** Paul W. Richardson, Stuart A. Karabenick, Helen M.G. Watt, 2014-05-30 Teacher Motivation Theory and Practice provides a much needed introduction to the current status and future directions of theory and research on teacher motivation Although there is a robust literature covering the theory and research on student motivation until recently there has been comparatively little attention paid to teachers This volume draws together a decade of work from psychological theorists and researchers interested in what motivates people to choose teaching as a career what motivates them as they work with students in classrooms the impact of intrinsic and extrinsic forces on career experiences and how their motivational profiles vary at different stages of their career With chapters from leading experts on the topic this volume provides a critical resource not only for educational psychologists but also for those working in related fields such as educational leadership teacher development policy makers and school psychology **Teaching at Its Best** Linda B. Nilson, 2016-06-22 The classic teaching toolbox updated with new research and ideas Teaching at Its Best is the bestselling research based toolbox for college instructors at any level in any higher education setting Packed with practical guidance proven techniques and expert perspectives this book helps instructors improve student learning both face to face and online This new fourth edition

features five new chapters on building critical thinking into course design creating a welcoming classroom environment helping students learn how to learn giving and receiving feedback and teaching in multiple modes along with the latest research and new questions to facilitate faculty discussion Topics include new coverage of the flipped classroom cutting edge technologies self regulated learning the mental processes involved in learning and memory and more in the accessible format and easy to understand style that has made this book a much valued resource among college faculty Good instructors are always looking for ways to improve student learning With college classrooms becoming increasingly varied by age ability and experience the need for fresh ideas and techniques has never been greater This book provides a wealth of research backed practices that apply across the board Teach students practical real world problem solving Interpret student ratings accurately Boost motivation and help students understand how they learn Explore alternative techniques formats activities and exercises Given the ever growing body of research on student learning faculty now have many more choices of effective teaching strategies than they used to have along with many more ways to achieve excellence in the classroom Teaching at Its Best is an invaluable toolbox for refreshing your approach and providing the exceptional education your students deserve

It's Not Because You're Black Annie Smith,2013-04-19 This book takes a realistic look at the effects of underrepresentation of African Americans in colleges and universities It highlights local state and national consequences facing America s educational future as the country becomes more diverse It also examines the challenges that face Blacks trying to get into the academy and issues that confront those who penetrate the system Whether intentional or embedded in the minds of those in American culture the results of Black underrepresentation in educational settings often carry devastating impacts on African American learners It affects learners in diverse educational settings as well as the career choices and opportunities for minorities who need them most An increase in African American professors would not only add

diversity on college campuses but also bring a unique perspective to the academy a situation that would be beneficial to all

Social and Emotional Aspects of Learning Sanna Jarvela, 2011-01-07 Social and emotional aspects of schooling and the learning environment can dramatically affect one's attention, understanding, and memory for learning. This topic has been of increasing interest in both psychology and education, leading to an entire section being devoted to it in the third edition of the International Encyclopedia of Education. Thirty-three articles from the Encyclopedia form this concise reference, which focuses on such topics as social and emotional development, anxiety in schools, effects of mood on motivation, peer learning, and friendship, and social networks. Saves researchers time in summarizing in one place what is otherwise an interdisciplinary field in cognitive psychology, personality, sociology, and education. Level of presentation focuses on critical research, leaving out the extraneous and focusing on need-to-know information. Contains contributions from top international researchers in the field. Makes MRW content affordable to individual researchers. National Library of Medicine Catalog National Library of Medicine (U.S.), 1966
