Educator Extraordinary The Life And Achievements Of Henry Morris 1889 1961:

Educator Extraordinary Harry Rée,1973 **Educator Extraordinary** Harry Rée,1973 Henry Morris was for over thirty years Chief Education Officer of Cambridgeshire He advocated the end of the insulated school and built the first of the community colleges At Digswell House he instituted an unusual system of art patronage and at Impington he introduced the New Architecture to British education Professor Rée discusses Morris's contributions to the arts education planning and central and local government against the background of his eccentric private life **Educator Extraordinary; the Life and Achievements of Henry Morris, 1889-1961** Harry Rée,1973 **A Schoolmaster's War** Jonathan Rée,2020-03-03 The wartime adventures of the legendary SOE agent Harry Rée told in his own words A school teacher at the start of the war Harry Rée renounced his former pacifism with the fall of France in 1940 He was deployed into a secret branch of the British army and parachuted into central France in April 1943 Harry showed a particular talent for winning the confidence of local resisters and guided them in a series of dramatic sabotage operations before getting into a hand to hand fight with an armed German officer from which he was lucky to escape This might seem like a romantic story of heroism and derring do but Harry Rée's own war writings superbly edited and contextualized by his son the philosopher Jonathan Rée are far more nuanced shot through with doubts regrets and grief *Utopian Universities* Miles Taylor,Jill Pellew,2020-11-12 In a remarkable decade of public investment in higher education some 200 new university campuses were established worldwide between 1961 and 1970 This volume offers a comparative and connective global history of these institutions illustrating how their establishment intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s With an impressive geographic coverage using case studies from Europe the Americas Africa and Asia the book explores how these universities have influenced academic disciplines and pioneered new types of teaching architectural design and student experience From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth the illuminating case studies of this volume demonstrate how these universities shared in a common cause the embodiment of utopian ideals of living learning and governance At a time when the role of higher education is fiercely debated *Utopian Universities* is a timely and considered intervention that offers a wide ranging historical dimension to contemporary predicaments *Landscape and Englishness* David Matless,2005-08-01 *Landscape* has been central to definitions of Englishness for centuries David Matless argues that landscape has been the site where English visions of the past present and future have met in debates over questions of national identity disputes over history and modernity and ideals of citizenship and the body *Landscape and Englishness* is extensively illustrated and draws on a wide range of material topographical guides health manuals paintings poetry architectural polemic photography nature guides and novels The author first examines the inter war period showing how a vision of Englishness and landscape as both modern and traditional urban and rural progressive and preservationist took shape around debates over building in the

countryside the replanning of cities and the cultures of leisure and citizenship He concludes by tracing out the story of landscape and Englishness down to the present day showing how the familiar terms of debate regarding landscape and heritage are a product of the immediate post war era and asking how current arguments over care for the environment or expressions of the nation resonate with earlier histories and geographies cultural history at its best subtle multi layered and full of new ideas and insights this book is a must Contemporary British History creates a convincing portrait of the changing meanings of the English landscape in the twentieth century Times Literary Supplement *The Vanishing Countryman* G. E. Mingay,2021-06-23 First published in 1989 The Vanishing Countryman investigates how farmers farm workers and other country crafts and tradespeople have fared in response to significant changes across the British countryside in the past one hundred years The book explores the move towards large scale and capital intensive farming and the conflict between increased production and damage to the environment It looks at the decline in the number of farm workers crafts and tradespeople It also considers the changes in social composition across country villages and the impact that this has had on living standards housing and transport The Vanishing Countryman will appeal to those with an interest in rural and social history and in the history of the British countryside specifically *Bauhaus Goes West: Modern Art and Design in Britain and America* Alan Powers,2019-08-20 An exploration of the Bauhaus school and its legacy in the context of the modernist period including its wider influence on art design and education Bauhaus Goes West is the story of cultural and artistic exchange between Germany and the West over a period of seventy years It presents a view of the influential Bauhaus school in relation to the wider modernist period distinguishing between the received idea of the Bauhaus and the documented reality Initially the Bauhaus was seen as an educational experiment only later was it recognized as a style and a movement Working from meticulous research Alan Powers reexamines speculations about the reception and understanding of individuals connected with the Bauhaus school and what they ultimately achieved Looking in greater detail at the theory and practice of art design and architecture between the arts and crafts movement and modernism this book challenges the assumption that the 1920s represented a void of reactionary conservatism Bauhaus Goes West offers an opportunity to recover some of the overlooked aspects of avant garde that ran parallel with the work of the Bauhaus such as the film making of Francis Brugui re and Len Lye and the development of art instruction for children under Marion Richardson and the London County Council *War and Progress* Peter Dewey,2014-09-11 This is an account of how the daily lives of ordinary peoples were changed profoundly and permanently by these three momentous decades 1914 1945 Often depicted in negative terms Peter Dewey finds a much more positive pattern in the wealth of evidence he lays before us His is a story of economic achievement and the emergence of a new sense of social community in the nation rather than a saga of disenchantment and decline *Dictionary of British Educationists* Richard Aldrich,Peter Gordon,1989 First Published in 1989 Routledge is an imprint of Taylor Francis an informa company **Improving School Governance** Nigel Gann,2015-10-15 About the first
