Good Murders And Bad Murders A Consumers Guide In The Age Of Information:

Good Murders and Bad Murders Wayne Wilson,1996 No descriptive material is available for this title **Murder** Sara Louise Knox,1998 An analysis of American murder narratives across a number of genres including novels sociological texts and true crime accounts *Is Killing Wrong?* Mark Cooney,2009-10-07 Thou shalt not kill is arguably the most basic moral and legal principle in any society Yet while some killers are pilloried and punished others are absolved and acquitted and still others are lauded and lionized Why The traditional answer is that how killers are treated depends on the nature of their killing whether it was aggressive or defensive intentional or accidental But those factors cannot explain the enormous variation in legal officials and citizens responses to real life homicides Cooney argues that a radically new style of thought pure sociology can Conceived by the sociologist Donald Black pure sociology makes no reference to psychology to any single person s intent or even to individuals as such Instead pure sociology explains behavior in terms of its social geometry its location and direction in a multidimensional social space *Is Killing Wrong* provides the most comprehensive assessment of pure sociology yet attempted Drawing on data from well over one hundred societies including the modern day United States it represents the most thorough account yet of case level social control or the response to conduct defined as wrong In doing so it demonstrates that the law and morality of homicide are neither universal nor relative but geometrical as predicted by Black s theory Female Serial Killers Peter Vronsky,2007-08-07 In this fascinating book Peter Vronsky exposes and investigates the phenomenon of women who kill and the political economic social and sexual implications buried with each victim How many of us are even remotely prepared to imagine our mothers daughters sisters or grandmothers as fiendish killers For centuries we have been conditioned to think of serial murderers and psychopathic predators as men with women registering low on our paranoia radar Perhaps that s why so many trusting husbands lovers family friends and children have fallen prey to the female monster From history s earliest recorded cases of homicidal females to Irma Grese the Nazi Beast of Belsen from Britain s notorious child slayer Myra Hindley to Honeymoon Killer Martha Beck to the sensational cult of Aileen Wournos the first female serial killer as celebrity to cult killers homicidal missionaries and our pop culture fascination with the sexy femme fatale Vronsky not only challenges our ordinary standards of good and evil but also defies our basic accepted perceptions of gender role and identity INCLUDES PHOTOGRAPHS *Death Penalty Mitigation* Jose B. Ashford,Melissa Kupferberg,2013-08-08 This book provides an introduction to socio legal forms of mitigation in capital sentencing It helps mitigation specialists defense investigators social scientists and lawyers in developing socio cultural themes of mitigation It examines scientific formulations concepts and frameworks for structuring social history investigations and assessments of moral culpability A fundamental aim of this handbook was to provide mitigation professionals not only with an understanding of the context of mitigation in criminal justice thinking but also ways of contextualizing issues of blame and culpability Cases are used to illustrate how to identify evaluate and present mitigation evidence in assessing issues of culpability in the

mitigation of punishment in death penalty cases It also exposes mitigation professionals to recent developments in the social sciences with implications for assessing issues of practical rationality diminished volition unfortunate forms of socialization criminal propensities socio cultural deprivation and gang involvement These topics are linked with legal and philosophical conceptions of moral culpability that offer mitigation professionals new ways of thinking about both proximal and remote forms of mitigation These socially oriented lenses used in examining these concepts and legal issues offer alternative ways of thinking about issues of capacity choice and character in assessing diminished forms of moral culpability The book concludes with recommendations for future research and other strategies for promoting the improvement of practice in the field of capital mitigation Unlike other books on death penalty mitigation this book examines issues of relevance to social scientists as well as mental health professionals In fact it is one of the only books written on the subject that includes opportunities for the inclusion of expert testimony on socio legal matters by social criminologists sociologists social psychologists and social workers

The Second Amendment and Gun Control Kevin Yuill, Joe Street, 2017-09-14 The Second Amendment by far the most controversial amendment to the US Constitution will soon celebrate its 225th anniversary Yet despite the amount of ink spilled over this controversy the debate continues on into the 21st century Initially written with a view towards protecting the nascent nation from more powerful enemies and preventing the tyranny experienced during the final years of British rule the Second Amendment has since become central to discussions about the balance between security and freedom It features in election contests and informs cultural discussions about race and gender This book seeks to broaden the discussion It situates discussion about gun controls within contemporary debates about citizenship culture philosophy and foreign policy as well as in the more familiar terrain of politics and history It features experts on the Constitution as well as chapters discussing the symbolic importance of Annie Oakley the role of firearms in race and filmic representations of armed Hispanic girl gangs It asks about the morality of gun controls and of not imposing them The collection presents a balanced view between those who favour more gun controls and those who would prefer fewer of them It is infused with the belief that through honest and open debate the often bitter cultural divide on the Second Amendment can be overcome and real progress made It contains a diverse range of perspectives including uniquely a European perspective on this most American of issues Criminal Justice Review ,1993 *Good Murders and Bad Murders* Wayne Wilson,1991 Homicide Bal K. Jerath, Rajinder Jerath, Vandna K. Jerath, 2001 It is an indispensable tool for scholars interested in homicide and related issues such as capital punishment David Lester Ph D Professor of Psychology Richard Stockton College of New Jersey It is the most complete compendium of homicide research I have ever seen J Reid Meloy Ph D Assoc Clinical Professor of Psychiatry University of California San Diego This book is a very worthwhile one to have for anyone who is seriously interested in learning more about the field of homicide Kathleen M Heide Ph D University of South Florida Tampa Professor of Criminology should be of particular interest to colleges and universities with studies in this respect of the social

psychological criminal and health sciences Lyn Dennison M L AHIP Assistant Director for Library Operations Greenblatt Library Medical College of Georgia a peerless compendium of the latest research on homicide I recommend this work to anyone who is involved in study of homicide Wade C Meyers M D Associate Professor and Chief Division of Forensic Psychiatry Departments of Psychiatry University of Florida acquisition of this remarkable reference is highly recommended to schools colleges and public libraries Docteur Michel Benezech Chef de Service Ancien Professeur Associe en Medecine Legal Professeur Associe de Droit Prive a l Universite de Bordeau IV Homicide A Bibliography is a valuable book for everyone involved with teaching and research in the field of forensic sciences Niuvanniemen Sairaala Department of Forensic Psychiatry University of Kuopia Niuvanniemen Hospital FIN 70240 Kuopia Finland **The Perpetual Prisoner Machine** Joel Dyer,2000 A critical look at the United States criminal justice system raising an obvious question If crime rates aren't going up why is the prison population **Bowker's Law Books and Serials in Print** ,1995 **Victims In The News** Steven Chermak,1995-05 **Social Problems in a Diverse Society** Diana Elizabeth Kendall,1998 Emphasizing the centrality of race class and gender in understanding people's life experiences and social problems in the US and other nations this college level text addresses contentious issues with reason and perspective Topics covered in the volume's 18 chapters include wealth and poverty **Social Justice** ,1992 **The American Journal of Psychiatry** ,1991 **American Book Publishing Record** ,1996-09 **The Female Homicide Offender** Stacey L. Shipley,Bruce A. Arrigo,2004 Why do some female homicide offenders commit serial murder The answer to this question has eluded criminal profilers and police officers for decades Although researchers have offered some tentative explanations based on the limited cases documented no systematic treatment of this phenomenon has occurred in the popular and academic literature at least not until now In this engaging accessible and detailed book authors Stacey L Shipley Psy D and Bruce A Amigo Ph D put many of the missing pieces together shedding new and provocative light on this fascinating though deadly crime Relying on insights from psychology and criminology they argue that unresolved trauma following poor or severed childhood attachments to parents can result in disorderly conduct in adolescents who act delinquently and psychopathic adults who behave criminally In order to test this theory Shipley and Arrigo turn to the high profile case of Aileen Wuornos a woman executed in 2002 for the cold blooded and calculated murders of seven men Challenging conventional wisdom that female killers are victims of abuse the authors provide a cogent and penetrating analysis raising many disturbing questions about the nature of predatory and serial murders committed by women Going well beyond the confines of the Aileen Wuornos case Shipley and Arrigo also examine the ethical dilemmas inherent in a culture of violence where the systems of criminal justice and mental health seemingly fail to assist persons in profound distress At issue here is the manner in which society helps to create the female homicide offender including those women who kill repeatedly *Paperbound Books in Print* ,1992 **Christgau's Consumer Guide: Albums of the '90s** Robert Christgau,2000-10-15 The Dean of American Rock Critics tackles the decade when music

exploded The 90s saw more albums produced and distributed than any other decade It was a fertile era for new genres from alt rock to Afropop hip hop to techno Rock critic Robert Christgau s obsessive ear and authoritative pen have covered it all over 3 800 albums graded and classified from A s to his celebrated turkeys and duds A rich appendix section ensures that nothing s been left out from subjects for further research to everything rocks but nothing ever dies Christgau s Consumer Guide is essential reading and reference for any dedicated listener *Current Law Index* ,1992
