**A New Juvenile Justice System** Nancy E. Dowd, 2015-05-15 A New Juvenile Justice System aims at nothing less than a complete reform of the existing system not minor change or even significant overhaul but the replacement of the existing system with a different vision The authors in this volume academics activists researchers and those who serve in the existing system all respond in this collection to the question of what the system should be Uniformly they agree that an ideal system should be centered around the principle of child well being and the goal of helping kids to achieve productive lives as citizens and members of their communities Rather than the existing system with its punitive destructive undermining effect and uneven application by race and gender these authors envision a system responsive to the needs of youth as well as to the community's legitimate need for public safety How they ask can the ideals of equality freedom liberty and self determination transform the system How can we improve the odds that children who have been labeled as delinquent can make successful transitions to adulthood And how can we create a system that relies on proven family focused interventions and creates opportunities for positive youth development Drawing upon interdisciplinary work as well as on the ground programs and experience the authors sketch out the broad parameters of such a system Providing the principles goals and concrete means to achieve them this volume imagines using our resources wisely and well to invest in all children and their potential to contribute and thrive in our society

**Juvenile Law Violators, Human Rights, and the Development of New Juvenile Justice Systems** Eric L Jensen, Jørgen Jepsen, 2006-10-04 This volume brings together scholars and practitioners specialising in juvenile justice from the US Europe alongside scholars from Africa and Asia who are working on human rights issues in developing countries or countries in transition The book thus presents two types of papers the first being descriptive and analytical academic papers on whole systems of juvenile justice or certain parts thereof e g aftercare restorative justice etc These topics are presented as essential for the development of new juvenile justice systems The second group of papers deal with efforts to promote reform through international activity PRI DCI DIHR and through efforts to utilise modern theory in national reforms in developing countries Malawi Nepal and Serbia or in countries experiencing current or recent political and systemic changes or developments South Africa Germany and Poland The volume

is also intended to throw light on recent trends in juvenile crime in various countries the relationship between actual developments and popular and political perceptions and reactions to such developments including the efforts to locate effective alternatives to the incarceration of young offenders At the same time as the search for such alternatives is being intensified through international exchange and experimentation the amelioration of harsh measures against juvenile law violators is often countered by political and public outcries for security and demonstrative public intervention against misbehavior A streak of new moralism is clearly discernable as a counteracting force against more humane reform efforts The volume throws light on developments in the actual parameters of juvenile offending public and political demands for security and public intervention and measures to provide interventions which are at the same time compatible with international human rights instruments

**Balancing Juvenile Justice** Susan Guarino-Ghezzi, 2017-09-29 The juvenile justice system in the United States has become a detrimental rather than a remedial experience one that often reinforces youths defiance of authority Trying juveniles as adults overcrowding juvenile detention facilities and other factors have led to the deterioration of a system whose original intent was to protect immature youngsters who might get arrested for truancy or joyriding The present system is ill equipped to cope with today's children who may be arrested for violent crimes such as rape and murder This has led to an intense pessimism Balancing Juvenile Justice now in an expanded revised edition is a comprehensive discussion of the primary considerations policymakers should use in striking a balance between holding youths responsible for past behavior and providing services and opportunities so that their future behavior will be guided by constructive rather than destructive forces The topics covered include trends in philosophy and politics a review of state and local reforms in juvenile justice the changing role of the juvenile court development of a balanced continuum of correctional programs and strategies for reform The authors emphasize that while juvenile offenders should pay for their crimes it is equally urgent to realize that adult neglect abuse rescinding needed resources and stigmatizing of youth will only ensure that crime and criminal justice become permanent distinguishing features of the United States This new edition of Balancing Juvenile Justice will be compelling reading for sociologists criminologists juvenile justice practitioners and policymakers

**Juvenile Justice: A Social, Historical and Legal Perspective**, A Handbook for Evidence-Based Juvenile Justice Systems James C. Howell, Mark W. Lipsey, John J. Wilson, 2014-06-18 This handbook promotes a comprehensive strategy founded on evidence based programming for juvenile justice systems to adopt or enhance their current system The comprehensive strategy is supported strongly by the broad

research base that is now available This strategy recognizes first that a relatively small proportion of the juveniles who initially enter the juvenile justice system will prove to be serious violent or chronic offenders but that group accounts for a large proportion of the overall amount of delinquency An important component of a comprehensive evidence based juvenile justice system therefore is distinguishing these offenders from others and focusing attention and resources on that smaller group Second a comprehensive strategy recognizes that serious violent or chronic delinquency emerges along developmental pathways that progress from less to more serious profiles of offending Priority must be given to interrupting these offender careers by calibrating the level of supervision and control of the juveniles behavior to their level of risk The third major component of a comprehensive strategy therefore is effective intervention programs that are capable of reducing the recidivism of those juveniles at risk for further delinquency The Comprehensive Strategy for Serious Violent and Chronic Juvenile Offenders is an administrative framework that supports a continuum of services that parallel the development of offender careers This framework emphasizes evidence based programming specifically on recidivism reduction and supports protocols for developing comprehensive treatment plans that match effective services with offender treatment needs along the life course of delinquent careers as they move from intake onward to probation community programs confinement and reentry Juvenile justice systems will benefit from incorporation of a comprehensive strategy as provided in the handbook

**Why Girls Fight** Cindy D. Ness, 2010-08 *VIOLENCE IN SOCIETY* In low income US cities street fights between teenage girls are common These fights take place at school on street corners or in parks when one girl provokes another to the point that she must either step up or be labelled a punk Typically when girls engage in violence that is not strictly self defence they are labelled delinquent their actions taken as a sign of emotional pathology However Cindy D Ness demonstrates that in poor urban areas this kind of street fighting is seen as a normal part of girlhood and a necessary way to earn respect among peers as well as a way for girls to attain a sense of mastery and self esteem in a social setting where legal opportunities for achievement are not otherwise easily available Ness sheds new light on the everyday street fighting of urban girls arguing that different cultural standards associated with race and class influence the relationship that girls have to physical aggression

**The Myth of the Community Fix** Sarah D. Cate, 2023-02-14 In *The Myth of the Community Fix* Sarah D Cate explores the consequences of the widespread bipartisan embrace of the community based reform movement in the juvenile justice system Using a qualitative comparative case study focused on Texas California and Pennsylvania she traces the historical development of juvenile justice policy and the limitations of the community based reform movement As Cate shows the current community based reform movement has led to a number of negative consequences particularly for racial minorities and working class youth By contextualizing the community based reform movement as part of the broader shift away from the centralized provision of public goods in the United States this book demonstrates why those committed to addressing the problems of mass incarceration should be wary of the community fix
