High-Risk Children In Schools Robert Pianta, Daniel Walsh, 2014-06-03 High Risk Children in Schools offers a way for psychologists and educators to see and talk about the growing population of at risk children those likely to fail at formal schooling while helping to redefine the relationship between schools and families Using systems theory and developmental psychology the authors present a new framework for the study and education of children who are at risk This framework the Contextual Systems Model creates a dialogue between the child and schooling through which meaning goals and experiences are shared and accepted

Rethinking Welfare Iain Ferguson, Michael Lavalette, Gerry Mooney, 2002-07-09 I would encourage undergraduates students to read it for it does summarise well a classical Marxist analysis of social policy and welfare Social Policy The anti capitalist movement is increasingly challenging the global hegemony of neo liberalism The arguments against

the neo liberal agenda are clearly articulated in *Rethinking Welfare* The authors highlight the growing inequalities and decimation of state welfare and use Marxist approaches to contemporary social policy to provide a defence of the welfare state Divided into three main sections the first part of this volume looks at the growth of inequality and social and environmental degradation Part Two centres on the authors argument for the relevance of core Marxist concepts in aiding our understanding of social policy This section includes Marxist approaches to a range of welfare issues and their implications for studying welfare regimes and practices Issues covered include Class and class struggle Oppression Alienation and the family The last part of the book explores the question of globalization and the consequences of international neo liberalism on indebted countries as well as the neo liberal agenda of the Conservative and New Labour governments in Britain The authors conclude with the prospect of an alternative welfare future which may form part of the challenge against global neo liberalism

Valuing Quality in Early Childhood Services Peter Moss, Alan Pence, 1994-10-28 Not only does this book offer a great deal of insight into evaluating early childhood services it also provides a focal point for those interested in establishing goals objectives and evaluation criteria for their own early childhood programmes Early Years Quality has become a priority issue for all concerned with early childhood care and education services Starting from the premise that quality is a relative and dynamic concept based on values and beliefs *Valuing Quality in Early Childhood Services* examines how the definitions of quality are established and who is involved in their establishment The book advocates that the process should involve a range of stakeholder groups including children parents staff care providers researchers employers and the community A key issue that emerges is the need for new and creative approaches to the development of an inclusionary process in the definitions and attainment of quality care

Journeys in Narrative Inquiry D Jean Clandinin, 2019-09-20 Organized around a metaphor of an academic journey D Jean Clandinin offers published tracings of an unfolding journey over 40 years that at its outset appeared to focus only on questions of epistemology However the book illuminates how that apparent beginning focus shape shifted to questions of methodology ethics ontology and subsequently political concerns Clandinin shows that even at the outset her research wonders were grounded in relational understandings of experience understandings that were simultaneously ontological methodological epistemological and ethical Jean s work is collaborative an engagement alongside others and within the contexts in which they and she lived and worked including those who were participants in the research She continues to acknowledge that narrative inquiry changes people s ways of being in the world and those changes have ethical significance While what she and her colleagues now call relational ethics has always been central recently her sense of ethics has become more explicitly political She shows the development of ideas over time beginning as she entered doctoral work and continuing through 2019 and onward Jean s work centered on relational understandings of experience highlights ethical dimensions and has come to define narrative understandings for generations of researchers This book will be an invaluable resource for researchers and graduate students and professional researchers

Multiple Worlds of Child Writers Anne Haas Dyson, 1989 Based on a two year study of first graders at a magnet school in the San Francisco Bay Area Multiple Worlds of Child Writers Friends Learning to Write provides an important missing link in the study of emergent literacy the peer group and the classroom contexts that surround it Using four richly detailed case studies the author portrays the process through which Margaret the teacher and her children form a community one supported by and supporting of the children s growth as writers Dyson offers new perspectives by displaying the quality of life in the classroom through children s talk drawings and writing The theoretical framework presented here for understanding children s growth moves what is usually considered background to the foreground for study Most works on children s writing stress that children must disembed or decontextualize their written texts from dependency on other symbolic media and other people Dyson however shows that to develop as writers children s text must become progressively more embedded in the social affective and intellectual parts of their lives The book also emphasizes the nature of the classroom rather than the home as a distinctive context for early literacy growth Moreover the classroom is an urban one that includes children from diverse social and ethnic backgrounds The classroom and children whose lives fill this book challenge current thinking about such critical issues as the developmental links between writing and other symbol systems sequence and variability in early writing growth the relationship between form and function in young children s writing and the development of literary language This book is a must for early childhood educators reading and language arts specialists and scholars researchers in the field of literacy

Moral Classrooms, Moral Children Rheta DeVries, Betty Zan, 1994 This work addresses the question of how to establish an interpersonal classroom atmosphere that fosters children s intellectual social moral emotional and personality development
