Christianity to Ireland he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become the isle of saints and scholars and thus preserve Western culture while Europe was being overrun by barbarians In this entertaining and compelling narrative Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era Without Ireland the transition could not have taken place Not only did Irish monks and scribes maintain the very record of Western civilization copying manuscripts of Greek and Latin writers both pagan and Christian while libraries and learning on the continent were forever lost they brought their uniquely Irish world view to the task As Cahill delightfully illustrates so much of the liveliness we associate with medieval culture has its roots in Ireland When the seeds of culture were replanted on the European continent it was from Ireland that they were germinated In the tradition of Barbara Tuchman s *A Distant Mirror* How The Irish Saved Civilization reconstructs an era that few know about but which is central to understanding our past and our cultural heritage But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization [Arts & Humanities Citation Index](#) ,1997 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals
