Norton-Smith, 2010-04-01 Uses the concept of world making to provide an introduction to American Indian philosophy Ever since first contact with Europeans American Indian stories about how the world is have been regarded as interesting objects of study but also as childish and savage philosophically curious and ethically monstrous Using the writings of early ethnographers and cultural anthropologists early narratives told or written by Indians and scholarly work by contemporary Native writers and philosophers Shawnee philosopher Thomas M Norton Smith develops a rational reconstruction of American Indian philosophy as a dance of person and place He views Native philosophy through the lens of a culturally sophisticated constructivism grounded in the work of contemporary American analytic philosopher Nelson Goodman in which descriptions of the world or world versions satisfying certain criteria construct actual worlds words make worlds Ultimately Norton Smith argues that the Native ways of organizing experiences with spoken words and other performances construct real worlds as robustly as their Western counterparts and in so doing he helps to bridge the chasm between Western and American Indian philosophical traditions a deft and self aware exemplification of the task of cross cultural comparison The writing is accessible and shows a deft and helpful interplay between abstract language and concrete illustrative material The Pluralist Norton Smith does a good job illustrating how worlds are created through language and how language itself contains philosophy H Net Reviews H Environment Norton Smith offers an insightful discussion of Native American epistemological concepts This book is an excellent exercise for all philosophy students as an

expansion of worldviews and an examination of Western epistemological foundations and biases It also offers an insightful discussion of indigenous philosophy for both philosophy and indigenous scholars Highly recommended CHOICE The author opens a unique and exciting avenue for philosophical discourse by demonstrating a method of inquiry that provides a new way of interpreting Native thinking a method that not only promotes Native philosophical systems but allows for greater communication between Western and Native philosophers Lorraine Mayer author of Cries from a M tis Heart Challenging and provocative this book is a great step forward in the conversation of academic Indigenous philosophy Brian Yazzie
