Gorbachevs Afghan Gambit National Security Papers 9:

Gorbachev's Afghan Gambit Theodore L. Eliot, 1988 **Lethal Politics** R. J. Rummel, 2017-07-05 While there are estimates of the number of people killed by Soviet authorities during particular episodes or campaigns until now no one has tried to calculate the complete human toll of Soviet genocides and mass murders since the revolution of 1917 Here R J Rummel lists and analyzes hundreds of published estimates presenting them in the historical context in which they occurred His shocking conclusion is that conservatively calculated 61 911 000 people were systematically killed by the Communist regime from 1917 to 1987 Rummel divides the published estimates on which he bases his conclusions into eight historical periods such as the Civil War collectivization and World War II The estimates are further divided into agents of death such as terrorism deportations and famine Using statistical principles developed from more than 25 years of quantitative research on nations he analyzes the estimates In the collectivization period for example about 11 440 000 people were murdered During World War II while the Soviet Union had lost almost 20 000 000 in the war the Party was killing even more of its citizens and foreigners probably an additional 13 053 000 For each period he defines counts and totals the sources of death He shows that Soviet forced labor camps were the major engine of death probably killing 39 464 000 prisoners overall To give meaning and depth to these figures Rummel compares them to the death toll from major wars world disasters global genocide deaths from cancer and other diseases and the like In these and other ways Rummel goes well beyond the bare bones of statistical analysis and tries to provide understanding of this incredible toll of human lives Why were these people killed What was the political and social context How can we understand it These and other questions are addressed in a compelling historical narrative This definitive book will be of interest to Soviet experts those into **The Taliban** M. J. Gohari, 2000 For many Westerners Islam appears to contradict democratic values yet these perceptions result from the characterization of certain Islamic movements as radical or fundamentalist This book describes one such movement that has been condemned in the West the Taliban in Afghanistan Shedding light on their doctrine it analyzes the rise of the Taliban and their effect on Afghan society their impact on Afghanistan s neighbors and their troubled relationship with the United Nations It concludes with a short chapter on the life and views of Bin Laden an elusive radical who has famously and brutally translated his beliefs into action **Historical Dictionary of Afghanistan** Ludwig W. Adamec, 2012 This new fourth edition has been substantially expanded because so much has taken place in such a short period of time The most important changes however have been made to the dictionary section with hundreds of added or substantially revised entries on important people places events institutions practices ethnic and religious groups political parties and Islamist movements as well as significant aspects of Afghanistan s politics economy society and culture *The Gorbachev Bibliography, 1985-1991* Joseph L.
