Gosudarstvennyi Ermitazh Zhivopis:

Dutch and Flemish Paintings from the Hermitage Gosudarstvennyı Ermitazh (Russia),1988 Catalog of an exhibition held at the Metropolitan Museum of Art from March 26 1988 to June 5 1988 and at the Art Institute of Chicago from Jul 9 1988 to Sept 18 1988 Includes bibliographical references p 125 134 Russian Genre Painting in the Nineteenth **Century** Rosalind Polly Blakesley, 2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West The State Hermitage ,1968 Catalogue of the Harvard University Fine Arts Library, the Fogg **Art Museum** Harvard University. Fine Arts Library, 1971 Bibliographic Guide to Art and Architecture New York Public Library. Art and Architecture Division, 1996 **An Imperial Collection** Jordana Pomeroy, Rosalind Polly Blakesley, 2003 The Extraordinary Selection of paintings reproduced in this stunning book all by western European women artists has been drawn from the unrivaled collection of the State Hermitage Museum in St Petersburg Russia and is published here as part of the international celebrations to mark the city s 300th anniversary An Imperial Collection explores how women as patrons artists and subjects contributed to the cultural history of Russia Eminent families formed collections and created artistic commissions that brought women artists to Russia and extended the influence of western European art at the royal court of the tsars Some women artists were allowed into the inner circles of the court providing an insider view into the private intimate side of imperial life Artists whose work is explored in the book include Elisabeth Louise Vigee Lebrun who from 1795 to 1801 found refuge in St Petersburg after the French Revolution forced her to flee her own country French sculptor Marie Anne Collot whose numerous works for Catherine the Great included the monumental head for the sculpture of Peter the Great now one of the great landmarks of St Petersburg and Angelica Kauffman one of the few eighteenth century women painters to tackle the challenging field of history painting often with a heightened sensitivity to female roles This book is essential reading for anyone interested in women artists the history of Russian patronage of the arts and Russian imperial history and culture Book jacket Bibliographic Guide to Soviet and East European Studies, 1992 G. K. Hall National Union Catalog, 1983 Includes entries for maps and atlases and Co. Staff, 1993-06 **How Divine Images** Became Art Oleg Tarasov, 2024-02-09 How Divine Images Became Art tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well

known they are usually studied in isolation Tarasov s study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque Shared Images Kirill Chunikhin, 2025-03-31 Who organized numerous exhibitions of American art in the Cold War Soviet Union and why Did Americans truly want to subvert the Soviet regime with abstraction and were the Soviets really afraid of non figurative art And most noteworthy can we adequately assess the role of art as a weapon of the Cold War The significance of Shared Images lies in its revision of what to date has been a biased politicized approach to American art and Soviet cultural policies during the Cold War Shared Images proposes that we write Cold War art history without merely projecting political events onto the art historical timeline and interpolating the logic of Cold War politics into cultural history Instead the monograph presents a careful narrative which along with major political events also considers individual agencies affective regimes and of course formative contexts other than the political Exploring American art as an essentially global phenomenon the monograph employs the concept of a shared history to analyze interconnections and mutual dependence of Soviet and American art histories from the late 1940s to the 1960s Shared Images thus revises narratives on Soviet and American isolationism allegedly a distinctive feature of Cold War cultures National Union Catalog, 1980, 1981 Library Catalog of the Metropolitan Museum of Art, New York. Supplement Metropolitan Museum of Art (New York, N.Y.). *English Accents* Christiana Payne, 2018-01-18 In the century following the foundation of the Royal Academy Library, 1962 in 1768 British art had an international reputation prints spread knowledge of the work of British artists around the globe and it was widely seen as the product of a modern commercial society and much admired by artists as diverse as Goya in Spain Delacroix in France and Bierstadt in America In recent years scholars working on this period have become increasingly aware of the international context of their subject but there has been no systematic analysis of the reception of British art abroad This collection of essays looks at the uses made of the paintings of Reynolds Hogarth Lawrence and their contemporaries on the continent of Europe and in the colonies and ex colonies of Australia and America The authors go beyond the simple issue of influence to consider how ideas and artistic conventions originating in the British Isles were

adapted appropriated or resisted in these new environments In the process some surprising views of British art emerge demonstrating how a multi faceted view from the outside can correct and enrich the narrative produced within a national school and revealing some of the important connections that are obscured when art is studied as it so often is within narrow national boundaries Subject Catalog Library of Congress, Library Catalog of the Metropolitan Museum of Art, New York Metropolitan Museum of Art (New York, N.Y.).
