Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F. Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

Studying Minority Adolescents Vonnie C. McLoyd, Laurence Steinberg, 1998-07-01 In the burgeoning research literature on adolescents the relative paucity of work examining ethnic variations in developmental processes is a glaring gap particularly because approximately one third of American young people now come from an ethnic minority background A primary factor in this research imbalance has been the lack of training in methods and research instruments needed to properly study ethnically diverse populations This book was developed in response to this need Its chief objective is to present recent theoretical conceptual and methodological advances in the study of ethnicity and development during adolescence The chapters address fundamental and enduring issues concerning the incorporation of ethnicity into research designs Topics such as demographics ethnicity friendly research paradigms and practical challenges that arise throughout

the research cycle are addressed by scholars who have been there and learned how to successfully study the effects of race and ethnicity on developmental processes and outcomes Established scholars and newcomers to research working both in academic and applied settings with adolescents as their focus will find this book a valuable resource **Family**
