Under Corporate Skies MARTIN BRUECKNER AND. DYANN ROSS, Martin Brueckner, 2010-10-19 Under Corporate Skies is about what happens to communities when they stand in the way of corporate profits It is the story of a tiny town pitted against a strong corporate neighbour With the help of international campaigner Erin Brockovich the small town of Yarloop in Western Australia is preparing a civil class action against Alcoa World Al *Carbon Accounting and Savanna Fire Management* Jeremy Russell-Smith, Brett Murphy, Andrew Edwards, CP (Mick) Meyer, 2015-06-15 In the context of Australia s developing carbon economy fire management helps to abate emissions of greenhouse gases and is an important means of generating carbon credits The vast high rainfall savannas of northern Australia are one of the world s most flammable landscapes Management of fires in this region has the potential to assist with meeting emissions reduction targets as well as conserving biodiversity and providing employment for Indigenous people in remote parts of Australia s north This comprehensive volume brings together recent research from northern Australian savannas to provide an internationally relevant case study for applying greenhouse gas accounting methodologies to the practice of fire management It provides scientific arguments for enlarging the area of fire prone land managed for emissions abatement The book also charts the progress towards development of a savanna fire bio sequestration methodology The future of integrated approaches to emissions abatement and bio sequestration is also discussed **Nature Conservation in Islamic Tradition** Mohd Zuhdi Marsuki, 2024-11-04 This book will discuss the practice of Islamic nature conservation by focusing on Harim and Hima The practice of Harim and Hima is a good model practised by Muslims tradition combining the theory and practice of environmental ethics Such practice should be a new focus in the study of Islamic environmental ethics beyond the theoretical discourse

Confronting the Nation's Water Problems National Research Council, Division on Earth and Life Studies, Water Science and Technology Board, Committee on Assessment of Water Resources Research, 2004-10-14 In order to confront the

increasingly severe water problems faced by all parts of the country the United States needs to make a new commitment to research on water resources A new mechanism is needed to coordinate water research currently fragmented among nearly 20 federal agencies Given the competition for water among farmers communities aquatic ecosystems and other users as well as emerging challenges such as climate change and the threat of waterborne diseases *Confronting the Nation's Water Problems* concludes that an additional 70 million in federal funding should go annually to water research Funding should go specifically to the areas of water demand and use water supply augmentation and other institutional research topics The book notes that overall federal funding for water research has been stagnant in real terms for the past 30 years and that the portion dedicated to research on water use and social science topics has declined considerably *At Risk* Piers Blaikie, Terry Cannon, Ian Davis, Ben Wisner, 2014-01-21 The term natural disaster is often used to refer to natural events such as earthquakes hurricanes or floods However the phrase natural disaster suggests an uncritical acceptance of a deeply engrained ideological and cultural myth *At Risk* questions this myth and argues that extreme natural events are not disasters until a vulnerable group of people is exposed The updated new edition confronts a further ten years of ever more expensive and deadly disasters and discusses disaster not as an aberration but as a signal failure of mainstream development Two analytical models are provided as tools for understanding vulnerability One links remote and distant root causes to unsafe conditions in a progression of vulnerability The other uses the concepts of access and livelihood to understand why some households are more vulnerable than others Examining key natural events and incorporating strategies to create a safer world this revised edition is an important resource for those involved in the fields of environment and development studies

Sustainable Land Sector Development in Northern Australia Jeremy Russell-Smith, Glenn James, Howard Pedersen, Kamaljit K. Sangha, 2018-09-03 Key Features Provides clear and authoritative recommendations for managing fire in ecological and social contexts Authors are all international leaders in their fields and include not only academics but also leaders of Indigenous communities Explains Indigenous cultural and knowledge systems to a degree that has rarely been accessible to lay and academic readers outside specialized disciplines like Anthropology Responds to growing need for new approaches to managing human ecological systems that are in greater sympathy with Australia's natural environments climate and value the knowledge of Indigenous people Timely for scholarly and interest groups intervention as the Australian government is again looking to develop the north *Sustainable Land Sector Development in Northern Australia* sets out a vision for developing North Australia based on a culturally appropriate and ecologically sustainable land sector economy This vision supports both Indigenous cultural responsibilities and aspirations as well as enhancing enterprise opportunities for society as a whole In the past well meaning if often misguided policy agendas have failed and continue to fail North Australians This book helps breach that gap by acknowledging and harnessing Indigenous cultural strengths and knowledge systems for looking after the country and its people as part of a smart novel and diversified ecosystem services economy

Governing the Anthropocene Sarah Clement, 2020-12-19 This book focuses on the present and future challenges of managing ecosystem transformation on a planet where human impacts are pervasive In this new epoch the Anthropocene the already rapid rate of species loss is amplified by climate change and other stress factors causing transformation of highly valued landscapes Many locations are already transforming into novel ecosystems where new species interactions and ecological functions are creating landscapes unlike anything seen before This has sparked contentious debate not just about science but about decision making responsibility fairness and human capacity to intervene Clement argues that the social and ecological reality of the Anthropocene requires modernised governance and policy to confront these new challenges and achieve ecological objectives There is a real opportunity to enable society to cope with transformed ecosystems by changing governance but this is notoriously difficult Aimed at anyone involved in these conversations be those researchers practitioners decision makers or students this book brings together diffuse research exploring how to confront institutional change and ecological transformation in different contexts and provides insight into how to translate governance concepts into productive pathways forward

Planning in an Uncanny World Nicholas A. Phelps, Judy Bush, Anna Hurlimann, 2022-12-23 This book places Australian conditions and urban planning centrally within comparative analysis of planning systems and cultures around the world to address issues including urban governance climate change transportation planning regional development and migration planning Australian urban conditions and their associated planning responses can and often have been seen as unique or exceptional They are seldom discussed in the same breath as conditions and associated planning systems internationally Yet as well as being somewhat different from those elsewhere in the world Australian urban conditions and planning responses are also somewhat similar They are uncanny strangely familiar yet unfamiliar In this book Australian urban conditions and their planning policies and practices are informally compared and contrasted with those existing internationally If Australian urban planning policy and practice have had limited influence internationally the partial familiarity of challenges posed by its urban conditions ensure that Australia is a more important global reference point for scholarship and practice than commonly is appreciated In this book the authors assert the potential and actual originality of urban planning scholarship arising from the Australian context It will be useful for students and faculty planners working in Australia as well as anyone interested in international planning debates

Forests People and Power Oliver Springate-Baginski, Piers Blaikie, 2013-06-17 With tens of millions of hectares and hundreds of millions of lives in the balance the debate over who should control South Asia's forests is of tremendous political significance This book provides an insightful and thorough assessment of important forest management transitions currently underway MARK POFFENBERGER EXECUTIVE DIRECTOR OF COMMUNITY FORESTRY INTERNATIONAL The contributions in this volume not only breathe life into the field of writing and analysis related to forests they do so on the strength of extraordinarily insightful research Kudos to Springate Baginski and Blaikie for providing us with a set of thoroughly researched provocative

studies that should be required reading not only for those interested in community forestry in south Asia but in resource governance anywhere ARUN AGRAWAL ASSOCIATE PROFESSOR OF NATURAL RESOURCES it challenges our assumptions of the benefits of participatory forest management and the role of forestry in poverty reduction It should be of interest to policy makers and to all those who have been involved with the struggle of transforming forestry over the decades DR MARY HOBLEY HOBLEY SHIELDS ASSOCIATES NATURAL RESOURCE MANAGEMENT AND PLANNING CONSULTANCY A rare combination of extensive field study social science insights and policy studies will be of immense value DR N C SAXENA MEMBER OF NATIONAL ADVISORY COUNCIL GOVERNMENT OF INDIA In recent decades participatory approaches to forest management have been introduced around the world This book assesses their implementation in the highly politicized environments of India and Nepal The authors critically examine the policy implementation processes and causal factors affecting livelihood impacts Considering narratives and field practice with data from over 60 study villages and over 1000 household interviews the book demonstrates why particular field outcomes have occurred and why policy reform often proves so difficult Research findings on which the book is based are already influencing policy in India and Nepal and the research and analysis have great relevance to forestry management in a wide range of countries Published with DFID Protecting the Oceans Beyond National Jurisdiction Robin Warner,2009 Knowledge of the marine environment beyond national jurisdiction and its unique biodiversity is still developing Simultaneously traditional uses of these areas including fishing and shipping are intensifying and new uses are emerging such as bio prospecting for marine genetic resources and climate change mitigation activities This volume examines the threats to the marine environment beyond national jurisdiction from existing and emerging human uses and the adequacy of current international law provisions to protect this major part of the global environment An analysis of key provisions in the 1982 United Nations Law of the Sea Convention and complementary principles of international environmental law reveals significant tensions between the concept of high seas freedoms and the international law obligation to protect and preserve the marine environment beyond national jurisdiction The book compares the lack of comprehensive environmental regulation for marine resource exploitation and shipping activities beyond national jurisdiction with the best practice standards for environmental protection being developed by the International Seabed Authority for deep seabed mining exploration Recent initiatives by the international community to study issues relating to conservation of high seas biodiversity are discussed and a range of soft and hard law options to strengthen the international law framework for protection of the marine environment beyond national jurisdiction are considered **Ten Commitments** David Lindenmayer,Stephen Dovers,Molly Harriss Olson,Steve Morton,2008-10-01 In Ten Commitments Reshaping the Lucky Country s Environment leading environmental thinkers in Australia have written provocative chapters on environmental issues facing the nation Each chapter includes 10 key issues that must be urgently addressed to improve Australia s environment The book is organised by ecosystem by sector and by cross cutting themes Topics include deserts rangelands

woodlands tropical savannas urban settlements forestry tropical and temperate marine ecosystems tropical rainforest alpine and aquatic ecosystems coasts fisheries agriculture mining grazing tourism climate change earth systems water biodiversity policy and institutional reforms the private sector human population health fire emergency management Indigenous land management and energy With over 40 experts weighing in on Australia's most pressing issues this is a must read for anyone interested in the environment

Deep Time Dreaming Billy Griffiths, 2018-02-26 People would have known about Australia before they saw it Smoke billowing above the sea spoke of a land that lay beyond the horizon A dense cloud of migrating birds may have pointed the way But the first Australians were voyaging into the unknown Soon after Billy Griffiths joins his first archaeological dig as camp manager and cook he is hooked Equipped with a historian's inquiring mind he embarks on a journey through time seeking to understand the extraordinary deep history of the Australian continent *Deep Time Dreaming* is the passionate product of that journey It investigates a twin revolution the reassertion of Aboriginal identity in the second half of the twentieth century and the uncovering of the traces of ancient Australia It explores what it means to live in a place of great antiquity with its complex questions of ownership and belonging It is about a slow shift in national consciousness the deep time dreaming that has changed the way many of us relate to this continent and its enduring dynamic human history John Mulvaney Book Award Winner Ernest Scott Prize Winner NSW Premier's Literary Awards Winner Book of the Year NSW Premier's Literary Awards Winner Douglas Stewart Prize for Non fiction Victorian Premier's Literary Awards Highly Commended Queensland Literary Awards Shortlisted Prime Minister's Literary Awards Shortlisted Educational Publishing Awards Shortlisted Australian Book Industry Awards Longlisted CHASS Book Prize Longlisted What a revelatory work If you wish to hear the voice of our continent's history before the written word *Deep Time Dreaming* is a must read The freshest most important book about our past in years Tim Flannery Once every generation a book comes along that marks the emergence of a powerful new literary voice and shifts our understanding of the nation's past Billy Griffiths *Deep Time Dreaming* is one such book Deeply researched creatively conceived and beautifully written it charts the expansion of archaeological knowledge in Australia for the first time No other book has managed to convey the mystery and intricacy of Indigenous antiquity in quite the same way Read it it will change the way you see Australian history Mark McKenna historian Billy Griffiths *Deep Time Dreaming* Uncovering Ancient Australia is a remarkable book and one destined I believe to become a modern classic of Australian history writing Written in vivid evocative prose this book will grip both the expert and the general reader alike Iain McCalman author of *The Reef A Passionate History* The Great Barrier Reef from Captain Cook to Climate Change
