## 1. PROJECTS, THE CATERING ROLE OF DEVELOPMENT

Projects are all-purpose weapons of development. Perhaps the most obvious danger projects pose is that they represent a universal solution for development, a universal representation of development programs. Indeed, the danger for a country goes beyond programs.

Project preparation is almost certain to be a source of opportunity at development for planning. Development-oriented agricultural development projects, involving private sector development, developing national policy guidance, and increasing resources are all critical to the success of agricultural and development activities. Indeed, project preparation is critical to development in a way that is almost certainly at least the first step in the process of development. Development-oriented projects are critical to development in a way that is almost certainly at least the first step in the process of development. Development-oriented projects are critical to development in a way that is almost certainly at least the first step in the process of development.

It is always possible that projects represent a source of opportunity for development in a way that is almost certainly at least the first step in the process of development. Development-oriented projects are critical to development in a way that is almost certainly at least the first step in the process of development. Development-oriented projects are critical to development in a way that is almost certainly at least the first step in the process of development.

### What is a Project?

In the United States, the word project has long been used to describe a development and production work that is a source of opportunity for development. The word project has long been used to describe a development and production work that is a source of opportunity for development. The word project has long been used to describe a development and production work that is a source of opportunity for development.
