Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change **Social History of Art, Volume 3** Arnold Hauser, 2005-08-19 First published in 1951 Arnold Hausers commanding work presents an account of the development and meaning of art from its origins in the Stone Age through to the Film Age Exploring the interaction between art and society Hauser effectively details social and historical movements and sketches the frameworks in which visual art is produced This new edition provides an excellent introduction to the work of Arnold Hauser In his general introduction to The Social History of Art Jonathan Harris assesses the importance of the work for contemporary art history and visual culture In addition an introduction to each volume provides a synopsis of Hausers narrative and serves as a critical guide to the text identifying major themes trends and arguments **Readings in the Economic and Social History of the United States** Felix Flügel, Harold Underwood Faulkner, 1929
