Economic Backwardness In Historical Perspective A Of Essays:

Economic Backwardness in Historical Perspective Alexander Gerschenkron,1962 **Economic Backwardness in Historical Perspective** Alexander Gerschenkron,1976 *Economic Backwardness in Historical Perspective* Alexander Gerschenkron,1962 Continuity in History and Other Essays Alexander Gerschenkron,1968 Globalization Jan-Erik Lane,2008 While some people debate whether globalization really exists it proceeds apace affecting all societies This interesting and erudite book adopts a distinctive approach to the multiple dimensions of the globalization debate The impressive coverage of philosophical thought including Popper Weber Habermas Lipset and Hobbes makes a valuable contribution to the debates on globalization **Economic Backwardness in Historical Perspectives** Alexander Gerschenkron,1962 *Capitalist Imperialism, Crisis and the State* J. Willoughby,2013-07-04 How valid is the Marxian theory of imperialism This book traces the historical development of the theory of imperialism the internationalisation of capital and theories of capitalist nation state formation *The East German Economy, 1945-2010* Hartmut Berghoff,Uta Andrea Balbier,2013-10-07 By many measures the German Democratic Republic GDR had the strongest economy in the Eastern bloc and was one of the most important industrial nations worldwide Nonetheless the economic history of the GDR has been primarily discussed as a failure when compared with the economic success of the Federal Republic and is often cited as one of the pre eminent examples of central planning s deficiencies This volume analyzes both the successes and failures of the East German economy The contributors consider the economic history of East Germany within its broader political cultural and social contexts Rather than limit their perspective to the period of the GDR s existence the essays additionally consider the decades before 1945 and the post 1990 era Contributors also trace the present and future of the East German economy and suggest possible outcomes **Elgar Companion to Neo-Schumpeterian Economics** Horst Hanusch,Andreas Pyka,2007 The Elgar Companion to Neo Schumpeterian Economics is a cutting edge collection of specially commissioned contributions highlighting not only the broad scope but also the common ground between all branches of this prolific and fast developing field of economics For 25 years economists have been investigating industrial dynamics under the heading of neo Schumpeterian economics which has itself become a mature and widely acknowledged discipline in the fields of innovation knowledge growth and development economics The Elgar Companion to Neo Schumpeterian Economics surveys the achievements of the most visible scholars in this area The contributions to the Companion give both a brief survey on the various fields of neo Schumpeterian economics as well as insights into recent research at the scientific frontiers The book also illustrates the potential of neo Schumpeterian economics to overcome its so far self imposed restriction to the domains of technology driven industry dynamics and to become a comprehensive approach in economics suited for the analysis of development processes in all economic domains Integrating both the public sector and financial markets the book focusses on the co evolutionary processes between the different domains As a roadmap for the development of a comprehensive neo

Schumpeterian theory the Companion will be an invaluable source of reference for researchers in the fields of industrial dynamics and economic growth and academics and scholars of economics generally PhD students will find the Companion an indispensable general introduction to the field of neo Schumpeterian economics It will also appeal to politicians and consultants engaged in national and international policy as the Companion deals with the highly important and ever topical phenomena of economic development

The Pioneers of Development Economics Jomo Kwame Sundaram,2005-09 A survey of the main influences on the development of modern development economics

Industrial Development in Mexico Walid Tijerina,2019-05-02 This book explores developmental policymaking across the multiple levels of Mexico s contemporary state arguing that many of the innovations in industrial policy have been driven at the subnational level In the three decades since Mexico s neoliberal turn in its political economy subnational units of government have taken a lead in industrial transformation galvanising policy from below With most literature on new developmentalism focusing on the national level this book is an important exploration of the differentiated and rewarding results that may be found below the state s centre Based on an original dataset of written and oral interviews gained from national and subnational governmental units of industrial policymaking in Mexico the book shows how attribution and power are diffused across the contemporary state s multiple levels Notable subnational projects explored by the book include public private collaboration productive investments and an interesting array of incentives targeted towards industrial upgrading and innovation The book concludes by providing a distinctive and systematic comparison between subnational units from different countries in Latin America and further afield in order to assess the commonalities of developmental roles and policies *Industrial Development in Mexico* will be an important read for scholars across the fields of political science political economy and Latin American development

Development Challenges and Solutions After the Arab Spring Ali Kadri,2016-01-26 Since the events of 2011 most Arab countries have slipped into a state of war and living conditions for the majority of the working population have not changed for the better This edited collection examines the socioeconomic conditions and contests the received policy framework to demonstrate that workable alternatives do exist

Revolutions in Modern German History Andrew G. Bonnell,2025-05-29 Andrew G Bonnell s innovative survey examines the history of revolution in modern Germany by focusing on key revolutionary developments in the German states There is coverage of Germany and the French Revolution the 1848 revolutions the Industrial Revolution the 1918 19 revolution the Nazi revolution of 1933 the revolution from above in Eastern Germany 1945 49 and the revolution in East Germany in 1989 90 *Revolutions in Modern German History* sheds new light on the subject by stressing the continuity of conflicts between revolution and counter revolution in German history thereby restoring a sense of the dramatic social conflicts that punctuated the history of the country It also reveals the significance of wider European and transnational developments of revolutionary and counter revolutionary movements and events Bonnell even reconstructs a sense of the participants changing horizon of expectations during these events by looking in depth at the

lives of men and women who lived and experienced these tumultuous times **Systems of Innovation** Charles Edquist, 2013-01-11 The systems of innovation approach is considered by many to be a useful analytical approach for better understanding innovation processes as well as the production and distribution of knowledge in the economy It is an appropriate framework for the empirical study of innovations in their contexts and is relevant for policy makers This text is the result of the work within an international inter disciplinary network or working seminar with the task of building a more solid and sophisticated conceptual and theoretical foundation for the continued study of innovations in a systemic context The book has three parts The first presents an overview and tries to work out some conceptual problems In the second the systems of innovation approach is related to innovation theory Part three is devoted to increasing understanding of the functioning and dynamics of systems of innovation There is also an introduction where the genesis and anatomy of different systems of innovation approaches are discussed and where the systems of innovation approach is characterized in nine dimensions *The Sinner and the Saint* Kevin Birmingham, 2021-11-16 A New York Times Book Review Editors Choice One of The East Hampton Star s 10 Best Books of the Year From the New York Times bestselling author of The Most Dangerous Book the true story behind the creation of another masterpiece of world literature Fyodor Dostoevsky s Crime and Punishment The Sinner and the Saint is the deeply researched and immersive tale of how Dostoevsky came to write this great murder story and why it changed the world As a young man Dostoevsky was a celebrated writer but his involvement with the radical politics of his day condemned him to a long Siberian exile There he spent years studying the criminals that were his companions Upon his return to St Petersburg in the 1860s he fought his way through gambling addiction debilitating debt epilepsy the deaths of those closest to him and literary banishment to craft an enduring classic The germ of Crime and Punishment came from the sensational story of Pierre Fran ois Lacenaire a notorious murderer who charmed and outraged Paris in the 1830s Lacenaire was a glamorous egoist who embodied the instincts that lie beneath nihilism a western influenced philosophy inspiring a new generation of Russian revolutionaries Dostoevsky began creating a Russian incarnation of Lacenaire a character who could demonstrate the errors of radical politics and ideas His name would be Raskolnikov Lacenaire shaped Raskolnikov in profound ways but the deeper insight as Birmingham shows is that Raskolnikov began to merge with Dostoevsky Dostoevsky was determined to tell a murder story from the murderer s perspective but his character couldn t be a monster No The murderer would be chilling because he wants so desperately to be good The writing consumed Dostoevsky As his debts and the predatory terms of his contract caught up with him he hired a stenographer to dictate the final chapters in time Anna Grigorievna became Dostoevsky s first reader and chief critic and changed the way he wrote forever By the time Dostoevsky finished his great novel he had fallen in love Dostoevsky s great subject was self consciousness Crime and Punishment advanced a revolution in artistic thinking and began the greatest phase of Dostoevsky s career The Sinner and the Saint now gives us the thrilling and definitive story of that triumph *Asia Pacific Dynamism*

1550-2000 Heita Kawakatsu, A. J. H. Latham, 2002-11 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company *Research in Economic History* Christopher Hanes, Susan Wolcott, 2020-09-30 Research in Economic History is a well established publication presenting influential work by leading researchers in the field of economic history including economists historians and demographers States and Social Revolutions Theda Skocpol, 2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions International Handbook of Development Economics Amitava Krishna Dutt, Jaime Ros, 2008-01-01 The essays are concise yet comprehensive and each essay contains a substantial set of references which an interested researcher or student could follow up In addition to representing multidisciplinary interactions this collection encompasses several different perspectives within development economics so the reader can learn for example both about neoclassical approaches and dependency theories in the same volume This makes the collection unique and all the more valuable This is a very good reference collection as the individual essays are informative and provide a good overall perspective on the topic that they set out to address The extensive bibliography at the end of each essay adds further value to this collection Ashwini Deshpande Economic and Political Weekly These new volumes impress along two dimensions First they highlight important connections between economic development and variables such as culture warfare and ethnicity which are sometimes ignored by mainstream economists Second they analyze the economic development experience of different regions such as Africa Latin America and East Asia a valuable reference for scholars and practitioners in the field Highly recommended H A Faruq Choice This two volume original reference work provides a comprehensive overview of development economics and comprises contributions by some of the leading scholars working in the field Authors are drawn from around the world and write on a wide range of topics After providing an introduction to the subject by examining issues like the meaning and measurement of development historical and interdisciplinary approaches empirical regularities and data problems the contributors provide a wealth of perspectives on and analyses of development economics They discuss alternative approaches to development the macroeconomics of growth factors and sources of economic development such as capital labor entrepreneurship resources and technology major sectors of concern such as agriculture

industry services and the informal sector and international issues such as trade capital and labor flows and technology transfers Income distribution and poverty the state and other institutions and actual development experiences are explored The contributors provide analytical contributions as well as the relation between these contributions and real world and policy issues from a variety of alternative perspectives Scholars students policymakers and other development practitioners will all find this comprehensive reference invaluable

Handbook of Critical Issues in Finance Jan Toporowski,Jo Michell,2012-01-01 This vital new Handbook is an authoritative volume presenting key issues in finance that have been widely discussed in the financial markets but have been neglected in textbooks and the usual compilations of conventional academic wisdom A wide range of topics including the recent economic crisis capital controls the Franc Zone quantitative easing and securitization as well as the key controversies associated with them are explored and explained in depth by well known authorities in finance and economics Designed to complement and expand upon standard textbooks as well as the specialist critical literature on particular topics in finance this informative Handbook will prove invaluable to academics researchers and students focusing on economics finance and heterodox economics
