Eden To Armageddon:

Eden to Armageddon Roger Ford, 2011-08-15 The definitive and epic account of World War I in the Middle East The Great War in the Middle East began with an invasion of the Garden of Eden and ended with a momentous victory on the site of the biblical Armageddon For the first time the complete story of this epic bloody war is now presented in a single definitive volume In this inspired new work of history Roger Ford describes the conflict in its entirety the war in Mesopotamia which would end with the creation of the countries of Iran and Iraq the desperate struggle in the Caucasus where the Turks had long standing territorial ambitions the doomed attacks on the Gallipoli Peninsula that would lead to ignominious defeat and the final act in Palestine where the Ottoman Empire finally crumbled Ford ends with a detailed description of the messy aftermath of the war and the new conflicts that arose in a reshaped Middle East that would play such a huge part in shaping world affairs for generations to come **Beguiled: Eden to Armageddon Volume 3** Dr. Joye Jeffries Pugh, 2017-12-09

Armageddon : The Future of World Religions, Violence, and Peacemaking Diplomacy Marc Gopin James H. Laue Professor and Director of the Center on Religion, and Conflict Resolution George Mason University, 2000-06-26 Recent years have seen a meteoric rise in the power and importance of organized religion in many parts of the world At the same time there has been a significant increase in violence perpetrated in the name of religion While much has been written on the

relationship between violence and religious militancy history shows that religious people have also played a critical role in peacemaking within numerous cultures In the new century will religion bring upon further catastrophes Or will it provide human civilization with methods of care healing and the creation of peaceful and just societies In this groundbreaking book Marc Gopin integrates the study of religion with the study of conflict resolution He argues that religion can play a critical role in constructing a global community of shared moral commitments and vision a community that can limit conflict to its nonviolent constructive variety If we examine religious myths and moral traditions Gopin argues we can understand why and when religious people come to violence and why and when they become staunch peacemakers He shows that it is the conservative expression of most religious traditions that presents the largest challenge in terms of peace and conflict Gopin considers ways to construct traditional paradigms that are committed to peacemaking on a deep level and offers such a paradigm for the case of Judaism Throughout Gopin emphasizes that developing the potential of the world s religions for coping with conflict demands a conscious process on the part of peacemakers and theologians His innovative and carefully argued study also offers a broad set of recommendations for policy planners both inside and outside of government **Eden**
