The Indigo Children Beth Singler, 2017-09-18 The Indigo Child concept is a contemporary New Age redefinition of self Indigo Children are described in their primary literature as a spiritually psychically and genetically advanced generation Born from the early 1980s the Indigo Children are thought to be here to usher in a new golden age by changing the world s current social paradigm However as they are paradigm busters they also claim to find it difficult to fit into contemporary society Indigo Children recount difficult childhoods and school years and the concept has also been used by members of the community to reinterpret conditions such as Attention Deficit Hyperactive Disorder ADHD and autism Cynics however can claim that the Indigo Child concept is an example of special snowflake syndrome and parodies abound This book is the fullest introduction to the Indigo Child concept to date Employing both on and offline ethnographic methods Beth Singler objectively considers the place of the Indigo Children in contemporary debates around religious identity self creation online participation conspiracy theories race and culture and definitions of the New Age movement **THE PSYCHIC CHILDREN - Dolphins, DNA and the Planetary Grid** Hugh Newman, 2007-12-02 Hugh takes us on an adventure from the heights of Glastonbury Tor to the pyramids of Guatemala and the volcanoes of Hawaii After meeting some Indigo children on the spring equinox in Hawaii Hugh was initiated into working on the planetary grid system that included decoding the mysteries of the dolphins and the changes that are happening within our DNA The adventure includes revelations about galactic alignment 2012 and a coming shift in consciousness which the children all know about Join Hugh on this journey as he unlocks the secrets one by one Includes a comprehensive nutritional health guide for Indigo children I am certainly impressed by the eclectic nature of

the material and the skill with which you have integrated the often complex subjects to reveal the greater picture now unfolding

Scientific Mythologies James A. Herrick, 2008-01-01 What does science have to do with science fiction What does science fiction have to do with scientists What does religion have to do with science and science fiction In the spiritual vacuum of our post Christian West new mythologies continually arise The sources of much religious speculation however may be surprising Author James Herrick directs our attention to a wide range of scientists filmmakers science fiction writers and religious philosophers and discovers there the role that science and science fiction have played in such mythmaking From scientists such as Francis Bacon Francis Crick Carl Sagan and Freeman Dyson to filmmakers such as George Lucas and Steven Spielberg to science fiction writers such as Olaf Stapledon Sir Arthur C Clarke Robert Heinlein and Isaac Asimov Herrick finds a curious collusion of science with science fiction for promoting and justifying alternative spiritualities The rise of these new mythologies he argues is no longer a curiosity at the edge of Western culture This alchemy is catalyzing a religious vision of new gods a new humanity and alien races with superior intelligence and secret knowledge This new mythology overshadows the realms of politics science and religion Should we follow such visions Does science endorse these mythologies Are we being offered a spirituality superior to the Judeo Christian tradition This book will help you decide
