today is dominated by linear mechanistic ideas that emerged from early twentieth century industry and are ill suited to the world we face today The problems and systems aid agencies deal with on a daily basis have more in common with ecosystems than machines they are interconnected diverse and dynamic they cannot be just simply re engineered or fixed Outside of aid social scientists economists business leaders and policy makers have started applying innovative and scientific approaches to such problems informed by ideas from the new science of complex adaptive systems Inspired by these efforts aid practitioners and researchers have started experimenting with such approaches in their own work This book showcases the experiences insights and often remarkable results of innovative thinkers and practitioners who are working to bring these approaches into the mainstream of aid From transforming child malnutrition to rethinking economic growth from building peace to reversing desertification from rural Vietnam to urban Kenya the ideas of complex systems thinking are starting to be used to make foreign aid more relevant more appropriate and more catalytic Aid on the Edge of Chaos argues that such ideas and approaches should play a vital part of the transformation of aid Aid should move from being an imperfect post World War II global resource transfer system to a new form of global cooperation that is truly fit for the twenty first century

Should scientists challenge religious beliefs in modern society This book gives voice to those scientist and theologians whose experience holds direct relevance in the confrontational science and religion debate **Discipleship on the Edge** Darrell W. Johnson, 2004 Revelation is probably the most read but least understood book of the Bible History is replete with examples of how not to interpret it and books featuring end of world prophecy claims based on Revelation consistently top the bestseller lists But how can the message of such an enigmatic book be applied to our lives today In Discipleship on the Edge Darrell W Johnson drives home the challenging and practical message of Revelation in thirty carefully crafted sermons Paying careful attention to the original context of Revelation and the circumstances surrounding its composition Johnson shows that the book is not a crystal ball but rather a discipleship manual Thoroughly researched and yet accessible this collection of sermons is a helpful resource for pastors and small group leaders who are looking for models to help them preach and teach the message of Revelation in a time when there is much confusion about the end times Darrell W Johnson serves as Scholar in Residence at The Way Church and Canadian Church Leaders Network in Vancouver British Columbia Canada A popular conference and retreat speaker he has also served as the preaching pastor for a number of congregations in North America and the Philippines as well as serving as Adjunct Professor of Preaching for the Doctor of Ministry program at Fuller Theological Seminary in Pasadena California and a Teaching Fellow at Regent College His other books include Experiencing the Trinity and Fifty Seven Words That Change The World
