Troward, 2017-10-24 Excerpt from The Dore Lectures on Mental Science The more perfect therefore the working of the personal factor the greater will be the results developed from the Universal Law and hence our lines Of study should be two fold on the one hand the theoretical study Of the action of Universal Law and on the other the practical fitting of our selves to make use of it and if the present volume should assist any reader in this two fold quest it will have answered its purpose The different subjects have necessarily been treated very briefly and the addresses can only be considered as suggestions for lines Of thought which the reader will be able to work out for himself and he must therefore not expect that careful elaboration Of detail which I would gladly have bestowed had I been writing on one of these subjects exclusively This little book must be taken only for what it is the record of somewhat fragmentary talks with a very indulgent audience to whom I gratefully dedicate the volume About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **A Comprehensive Summary and Analysis of The Dore Lectures on**
