Jane Sloan,2007-03-26 In the last several decades the number of films featuring female protagonists has increased significantly Many of these films reflect the vast cultural and sociological changes that have taken place since the early 1960s highlighting not only a wide spectrum of female characters depicted onscreen but the creative work of women behind the camera as well In Reel Women An International Directory of Contemporary Feature Films about Women media librarian Jane Sloan has assembled an impressive list of more than 2400 films _from nearly 100 countries_ that feature female protagonists Each entry includes a brief description of the film and cites key artistic personnel particularly female directors producers and screenwriters involved in its production Reel Women also contains a critical survey in which Sloan charts the changes women have undergone both on screen and off as moviemaking and audience sensibilities have evolved in the last forty plus years Listing many more films on the subject of women than can be found in any other source this reference brings together important titles from area studies and genre markets along with titles associated with women s cinema and feminist film In addition to title and actor indexes the book contains a subject index that provides detailed access to place names historical characters time periods and storylines as well as the backgrounds _religious racial and ethnic_ of the main characters This directory is an ideal reference tool for researchers studying the evolution of female characters in films around the world from Afghanistan to Zimbabwe It is also a resource for casual viewers who are looking for films that reflect the diversity of women s roles that can be found in independent and national cinemas as well as commercial blockbusters **Ediths Tagebuch**

moments in a collective history that unites East and West even as it divides them Telling stories about a shared past establishing foundational myths and finding commonalities of experience are pivotal steps in the construction of national identity Such nation building is always incomplete but the cinema provides an important forum in which notions of German history and national identity can be consumed negotiated and contested This book looks at history films made since 1989 exploring how utopianism and political dissent have shaped German identity It studies the genre including popular successes critical successes and perceived failures as a set of texts and a discursive network gauging which conventions and storylines are resilient At issue is the overriding question to what extent do these films contribute to a narrative that legitimizes the German nation state Mary Elizabeth O'Brien is Professor of German and The Courtney and Steven Ross Chair in Interdisciplinary Studies at Skidmore College

Historical Dictionary of Italian Cinema Gino Moliterno, 2020-12-08 Italian cinema is now regarded as one of the great cinemas of the world Historically however its fortunes have varied Following a brief moment of glory in the early silent era Italian cinema appeared to descend almost into irrelevance in the early 1920s A strong revival of the industry which gathered pace during the 1930s was abruptly truncated by the advent of World War II The end of the war however initiated a renewal as films such as *Roma città aperta* *Rome Open City* *Sciusci Shoeshine* 1946 and *Ladri di biciclette* *Bicycle Thieves* 1948 flagbearers of what soon came to be known as Neorealism attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian films were feted worldwide Ironically they were celebrated nowhere more than in the United States where Italian films consistently garnered the lion's share of the Oscars with Lina Wertmüller becoming the first woman to ever be nominated for the Best Director award This second edition of *Historical Dictionary of Italian Cinema* contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross-referenced entries on major movements directors actors actresses film genres producers industry organizations and key films This book is an excellent resource for students researchers and anyone wanting to know more about Italian Cinema
