The Oxford Handbook of Levinas Michael L. Morgan, 2019-04-10

Emmanuel Levinas (1906-1995) emerged as an influential philosophical voice in the final decades of the twentieth century and his reputation has continued to flourish and increase in our own day. His central themes, the primacy of the ethical and the core of ethics as our responsibility to and for others, speak to readers from a host of disciplines and perspectives. However, his writings and thought are challenging and difficult. The Oxford Handbook of Levinas contains essays that aim to clarify and engage Levinas and his writings in a number of ways. Some focus on central themes of his work; others on the ways in which he read and was influenced by figures from Plato, Hobbes, Descartes and Kant to Blanchot, Husserl, Heidegger and Derrida. And there are essays on how his thinking has been appropriated in moral and political thought, psychology, film criticism and more, and on the relation between his thinking

and religious themes and traditions Finally several essays deal primarily with how readers have criticized him and found him wanting The volume exposes and explores both the depth of Levinas s philosophical work and the range of applications to which it has been put with special attention to clarifying why his interests in the human condition the crisis of civilization the centrality and character of ethics and morality and the very meaning of human experience should be of interest to the widest range of readers

Bolzano's Theoretical Philosophy S. Lapointe,2011-01-28 The first book in English to offer a systematic survey of Bolzano s philosophical logic and theory of knowledge it offers a reconstruction of Bolzano s views on a series of key issues the analysis of meaning generality analyticity logical consequence mathematical demonstration and knowledge by virtue of meaning

Willful Subjects Sara Ahmed,2014-08-25 In Willful Subjects Sara Ahmed explores willfulness as a charge often made by some against others One history of will is a history of attempts to eliminate willfulness from the will Delving into philosophical and literary texts Ahmed examines the relation between will and willfulness ill will and good will and the particular will and general will Her reflections shed light on how will is embedded in a political and cultural landscape how it is embodied and how will and willfulness are socially mediated Attentive to the wayward the wandering and the deviant Ahmed considers how willfulness is taken up by those who have received its charge Grounded in feminist queer and antiracist politics her sui generis analysis of the willful subject the figure who wills wrongly or wills too much suggests that willfulness might be required to recover from the attempt at its elimination

Phenomenology of Religion Archana Barua,2009-01-01 Out of the wide variety of themes covered by Husserl s phenomenology and later developed by Heidegger Merleau Ponty and others in different possible directions the present work attempts to indicate the few features of the method that derives from Edmund Husserl s basic themes of the phenomenological movement and its methodology Barua explores the manner in which this method has been applied to the study of art and religion by other phenomenologists and accordingly introduces the problem of this profound bulk namely the phenomenological approach to religion mostly in their terms

Questions of Phenomenology Françoise Dastur,2017-06-01 Fran oise Dastur is well respected in France and Europe for her mastery of phenomenology as a movement and her clear and cogent explications of phenomenology in movement These qualities are on display in this remarkable volume Dastur guides the reader through a series of phenomenological questions language and logic self and other temporality and history finitude and mortality that also call phenomenology itself into question testing its limits and pushing it in new directions Like Merleau Ponty Dastur sees phenomenology not as a doctrine a catalogue of concepts and catchphrases authored by a single thinker but as a movement in which several thinkers participate each inflecting the movement in unique ways In this regard Dastur is both one of the clearest guides to phenomenology and one of its ablest practitioners

The Oxford Handbook of the History of Phenomenology Dan Zahavi,2018-06-04 This Oxford Handbook offers a broad critical survey of the development of phenomenology one of the main streams of philosophy since the nineteenth century It comprises thirty seven specially

written chapters by leading figures in the field which highlight historical influences connections and developments and offer a better comprehension and assessment of the continuity as well as diversity of the phenomenological tradition The handbook is divided into three distinct parts The first part addresses the way phenomenology has been influenced by earlier periods or figures in the history of philosophy The second part contains chapters targeting prominent phenomenologists How was their work affected by earlier figures how did their own views change over time and what kind of influence did they exert on subsequent thinkers The contributions in the third part trace various core topics such as subjectivity intersubjectivity embodiment spatiality imagination etc in the work of different phenomenologists in order to explore how the notions were transformed enriched and expanded up through the century This volume will be a source of insight for philosophers students of philosophy and for people working in other disciplines of the humanities social sciences and sciences who are interested in the phenomenological tradition It is an authoritative guide to how phenomenology started how it developed and where it is heading

When people should go to the books stores, search instigation by shop, shelf by shelf, it is in fact problematic. This is why we provide the ebook compilations in this website. It will certainly ease you to look guide **Edmund Husserl Critical Assessments Of Leading Philosophers** as you such as.
