

NEWCOMER INTEGRATION AND EDUCATING CANADIANS

BY: MICHELLE LAM

The Canadian government defines integration as a “two-way street,” (2011) which involves change and accommodation from both newcomers and Canadians. But most settlement and integration initiatives work towards educating newcomers about Canada, not the other way around.

Examples of education initiatives aimed at Canadians include the poverty simulation (United Way, 2017) and the forced migration simulation (Canadian Foodgrains Bank, 2017).

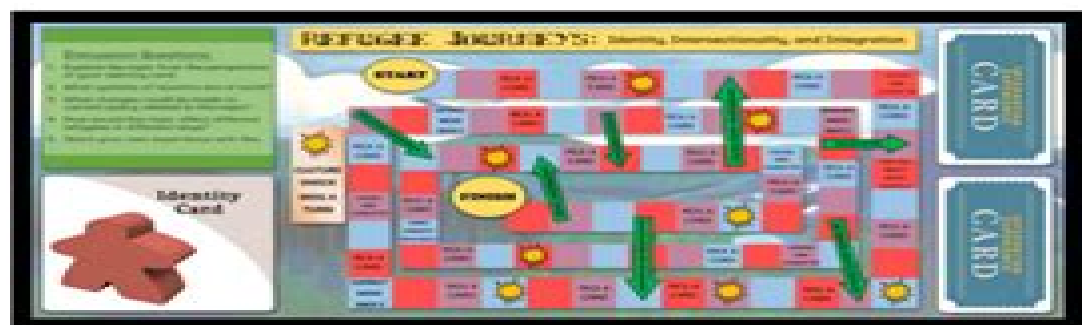

However, these tools do not address the issue of integration, namely the ability to contribute, free of barriers, to every aspect of Canadian life (Shields, Drolet, & Valenzuela, 2016).

This research brief provides an in-depth analysis of the recent board game tool entitled *Refugee Journeys: Identity, Intersectionality, and Integration* (Lam, 2017).

The game (pictured below) was developed with the goal of educating Canadians about newcomer experiences.

KEY POINTS

- Integration is a 2-way street, where both newcomers and Canadians change and accommodate
- Tools to educate Canadians about newcomers exist, including the Poverty Simulation (United Way, 2017) and the Forced Migration Simulation (Canadian Foodgrains Bank, 2017)
- A board game, entitled *Refugee Journeys: Identity, Intersectionality, and Integration* is a tool that can educate Canadians more specifically about integration experiences

Religion in Multicultural Education Farideh Salili,Rumjahn Hoosain,2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguisticism ablism ageism heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education
