*Educating Citizens* Charles Venegoni, 2004-09-20 The United States is in the midst of historic experiments with publicly funded choice in K 12 education experiments that recently received a green light from the Supreme Court Other nations have long experience with the funding and regulation of nonpublic schools including religious schools This book asks what U S policymakers public officials and citizens can learn from these experiences In particular how do other countries regulate or structure publicly funded educational choice with an eye toward civic values looking not only for improvements in test scores but also in tolerance civic cohesion and democratic values such as integration across the lines of class religion and race The experience of Europe and Canada with school choice is both extensive and varied In England and Wales public school choice is widespread as parents play a significant role in selecting the school their children will attend In the Netherlands and much of Belgium a majority of students attend religious schools at government expense In Canada France and Germany state financed school choice is limited to circumstances that serve particular social and governmental needs In Italy school choice has just recently arrived on the policy agenda In spite of the diversity of national experiences in all of these countries choice is regulated by the government in significant and varied ways to promote civic values In several of these countries school choice policy itself appears to have played an important role in promoting social cohesion and integration This book presents a wealth of experience designed to aid policymakers and citizens as they consider historic changes in American public education policy

McCluskey, 2022-09-15 American public schooling was established to unify diverse people and prepare citizens for democracy Intuitively it would teach diverse people the same values preferably in the same buildings with the goal that they will learn to get along and uphold government by the people But intuition can be wrong significant evidence suggests that public schools have not brought diverse people together whether from legally mandated racial segregation espousing values many people could not accept or human beings simply tending to associate with others like themselves Indeed the basic reality that people have diverse values and desires has rendered public schooling not a unifying force but a battleground That public schooling is necessary for democracy is also not supported both because we do not have a commonly agreed upon definition of democracy and because public schooling violates the bedrock American value liberty that democracy is supposed to protect **The Fractured Schoolhouse** Reexamining Education for a Free Equal and Harmonious Society proposes that to fulfill the mission of public schooling we need what some might call its opposite school choice Education grounded in liberty would enable diverse people to pursue curricula and policies they think are right without having to impose them on others and by making separated groups equals and easing the creation of new identities it would foster bridge building

by both the G W Bush and Obama administrations that will allow for fresh thinking and the betterment of American education as a whole Author William H Jeynes PhD asks vital questions regarding the school choice issue that are often overlooked Which specific programs of school choice are likely to work and which would likely fail Is school choice really a boon for the private sector How might the implementation of school choice programs increase or decrease the financial burden on government budget deficits This book carefully addresses a relevant topic that ultimately affects every American making it essential reading for everyone from government officials and educators to students and the general public **Getting**

*The Welfare State in Post-Industrial Society* Jason L. Powell, Jon Hendricks, 2009-06-10 In recent years major social forces such as ageing populations social trends migration patterns and the globalization of economies have reshaped social welfare policies and practices across the globe Multinational corporations NGOs and other international organizations have begun to influence social policy at a national and local level Among the many ramifications of these changes is that globalizing influences may hinder the ability of individual nation states to effect policies that are beneficial to them on a local level With contributions from thirteen countries worldwide this collected work represents the first major comparative analysis on the effect of globalization on the international welfare state *The Welfare State in Post Industrial Society* is divided into two major

sections the first draws from a number of leading social welfare researchers from diverse countries who point to the nation state as case studies highlighting how it goes about establishing and revising social welfare provisions The second portion of the volume then moves to a more global perspective in its analysis and questioning of the impact of globalization on citizenship ageing and marketization The Welfare State in Post Industrial Society seeks to encourage debate about the implications of the most pressing social welfare issues in nation states and integrate analyses of policy and practice in particular countries struggling to provide social welfare support for their needy populations

Brown vs Board of Education While it is well known for establishing racial equality as a central commitment of American schools the case also inspired social movements for equality in education across all lines of difference including language gender disability immigration status socio economic status religion and sexual orientation Yet more than a half century after Brown American schools are more racially separated than before and educators parents and policy makers still debate whether the ruling requires all inclusive classrooms in terms of race gender disability and other differences In Brown s Wake examines the reverberations of Brown in American schools including efforts to promote equal opportunities for all kinds of students School choice once a strategy for avoiding Brown has emerged as a tool to promote integration and opportunities even as charter schools and private school voucher programs enable new forms of self separation by language gender disability and ethnicity Martha Minow Dean of Harvard Law School argues that the criteria placed on such initiatives carry serious consequences for both the character of American education and civil society itself Although the original promise of Brown remains more symbolic than effective Minow demonstrates the power of its vision in the struggles for equal education regardless of students social identity not only in the United States but also in many countries around the world Further she urges renewed commitment to the project of social integration even while acknowledging the complex obstacles that must be overcome An elegant and concise overview of Brown and its aftermath In Brown s Wake explores the broad ranging and often surprising impact of one of the century s most important Supreme Court decisions      **Educating Believers** Robert
