Education And Individual Modernity In Developing Countries International Studies In Sociology And Social Anthropology:

Education and Individual Modernity in Developing Countries Alex Inkeles, Donald B. Holsinger, 1974 **Education and Individual Modernity in Developing Countries** Inkeles, Holsinger, 2022-03-28 **Population, Gender and Politics** Roger Jeffery, Patricia Jeffery, 1997-07-13 Roger and Patricia Jeffery are well known for their work on religion and gender in South Asia In their latest book a study of the demographic processes of two castes in rural north India they ask why fertility levels are higher among the Muslim Sheikhs than the Hindu Jats They conclude that explanations can only partially be attributed to gender relationships and religion and it is the economic and political interests of both groups which are the defining factors Their marginal economic position provides little incentive for the Sheikhs to raise small families while the Jats who are locally dominant are encouraged to use birth control and educate their children The authors go on to demonstrate the significance of this analysis for a wider understanding of the problems of population and politics in India generally The book will be invaluable for students of South Asia and for anyone interested in the demography of developing countries **Contemporary Problems of Pakistan** Korson, 2022-03-07 **Policy Research** Amitai Etzioni, 1978

Status Enhancement and Fertility John D. Kasarda, John O. G. Billy, Kirsten West, 2013-09-03 Status Enhancement and Fertility Reproductive Responses to Social Mobility and Educational Opportunity provides a theoretical framework in which research findings on the socioeconomic determinants of fertility may be integrated Starting with an introductory chapter on the substantive scope of the book separate chapters provide a detailed review appraisal and synthesis of the complex research literature on social mobility and fertility examine various statistical methodologies and suggest some fruitful avenues future research might pursue and discuss the role of education in enhancing the status of women and the main intervening variables that link education to reproductive behavior Subsequent chapters examines female labor force participation the value of children infant and child mortality age at marriage and first birth and family planning knowledge and practice The final chapter discusses policy issues derived from models and assessments presented in the preceding chapters This book may be used as an upper division or graduate level text in population courses **International Studies**
