James Jacob, Sheng Yao Cheng, Maureen K. Porter, 2015-01-20 Indigenous Education is a compilation of conceptual chapters and national case studies that includes empirical research based on a series of data collection methods The book provides up to date scholarly research on global trends on three issues of paramount importance with indigenous education language culture and identity It also offers a strategic comparative and international education policy statement on recent shifts in indigenous education and new approaches to explore develop and improve comparative education and policy research globally Contributing authors examine several social justice issues related to indigenous education In addition to case perspectives from 12 countries and global regions the volume includes five conceptual chapters on topics that influence indigenous education including policy debates the media the united nations formal and informal education systems and higher education Teaching Indigenous Students Jon Reyhner, 2015-04-29 Teaching Indigenous Students puts culturally based education squarely into practice The volume edited and with an introduction by leading American Indian education scholar Jon Reyhner brings together new and dynamic research from established and emerging voices in the field of American Indian and Indigenous education An Introduction to Native North America -- Pearson eText ,2015-08-26 An Introduction to Native North America provides a basic introduction to the native peoples of North America including both the United States and Canada It covers the history of research basic prehistory the European invasion and the impact of Europeans on Native cultures Additionally much of the book is written from the perspective of the ethnographic present and the various cultures are described as they were at the specific times noted in the text Democratization and Memories of <u>Violence</u> Mneesha Gellman, 2016-08-05 Ethnic minority communities make claims for cultural rights from states in different ways depending on how governments include them in policies and practices of accommodation or assimilation However institutional explanations don t tell the whole story as individuals and communities also protest using emotionally compelling narratives about past wrongs to justify their claims for new rights protections Democratization and Memories of Violence Ethnic minority rights movements in Mexico Turkey and El Salvador examines how ethnic minority communities use memories of state and paramilitary violence to shame states into cooperating with minority cultural agendas such as the right to mother tongue education Shaming and claiming is a social movement tactic that binds historic violence to contemporary

citizenship Combining theory with empirics the book accounts for how democratization shapes citizen experiences of interest representation and how memorialization processes challenge state regimes of forgetting at local state and international levels Democratization and Memories of Violence draws on six case studies in Mexico Turkey and El Salvador to show how memory based narratives serve as emotionally salient leverage for marginalized communities to facilitate state consideration of minority rights agendas This book will be of interest to postgraduates and researchers in comparative politics development studies sociology international studies peace and conflict studies and area studies Culturicide, Resistance, and Survival of the Lakota James V. Fenelon, 2014-06-03 This ground breaking work develops theories and methods of analyzing the United States domination of Native Americans through a study of the Lakota society known as the Sioux Nation of Indians Two centuries of struggle between nations and cultures during the U S expansion over North America are described utilizing policy BIA and cross cultural US Lakota history with insightful additions to understanding the Tetonwan Sioux Contributing new forms of analysis to the study of attempted domination and destruction of Native American societies the author explores the concept of culturicide in relation to theories of genocide and cultural domination He links resistance by traditionalists and activists to cultural survival in charts of U S and Lakota policies and counter policies. The study provides maps to identify struggles over land and shows how social institutions have been used to attack Lakota culture The author provides documented recent events to illustrate contemporary Lakota social life often from an insider s point of view The work provides a framework for understanding similar conflicts for other Native Nations Also includes maps James Fenelon is Dakota Lakota and is Assistant Professor of Sociology at John Carroll University Bibliography Index Risk Jeffrey Ian Ross Ph.D., 2013-10-28 This essential reference work enables a deeper understanding of contemporary challenges in the lives of American Indians and Alaskan Natives today carefully reviewing their unique problems and proposing potential solutions American Indians face problems in their lives on a daily basis that most other Americans never contend with and their challenges which in some cases are similar to those of other minority groups in the United States are still qualitatively unique American Indians at Risk gives readers a broad overview of what life in Indian country is like addressing specific contemporary social issues such as alcoholism unemployment and suicide The author goes beyond detailed descriptions of the problems of American Indians to also present solutions some of which have been effective in addressing these challenges Each chapter includes a Further Investigations section that presents helpful ideas for additional research Literacy as Translingual Practice Suresh Canagarajah, 2013-03-05 The term translingual highlights the reality that people always shuttle across languages communicate in hybrid languages and thus enjoy multilingual competence In the context of migration transnational economic and cultural relations digital communication and globalism increasing contact is taking place between languages and communities In these contact zones new genres of writing and new textual conventions are emerging that go beyond traditional dichotomies that treat languages as separated from each other and texts and writers

as determined by one language or the other Pushing forward a translingual orientation to writing one that is in tune with the new literacies and communicative practices flowing into writing classrooms and demanding new pedagogies and policies this volume is structured around five concerns refining the theoretical premises learning from community practices debating the role of code meshed products identifying new research directions and developing sound pedagogical applications These themes are explored by leading scholars from L1 and L2 composition rhetoric and applied linguistics education theory and classroom practice and diverse ethnic rhetorics Timely and much needed Literacy as Translingual Practice is essential reading for students researchers and practitioners across these fields Standing Together Beverly J. Klug, 2012-11-28 The majority of American Indian students attend public schools in the United States However education mandated for American Indian students since the 1800s has been primarily education for assimilation with the goal of eliminating American Indian cultures and languages Indeed extreme measures were taken to ensure Native students would act white as a result of their involvement with Western education Today's educational mandates continue a hegemonic one size fits all approach to education This is in spite of evidence that these approaches have rarely worked for Native students and have been extremely detrimental to Native communities This book provides information about the importance of teaching American Indian students by bridging home and schools using students cultural capital as a springboard for academic success Culturally Responsive Pedagogy is explored from its earliest beginnings following the 1928 Meriam Report Successful education of Native students depends on all involved and respect for the voices of American Indians in calling for education that holds high expectations for native students and allows them to be grounded in their cultures and languages through Multilingual Education Tove Skutnabb-Kangas, Robert Phillipson, Ajit K. Mohanty, Minati Panda, 2009-08-20 The principles for enabling children to become fully proficient multilinguals through schooling are well known Even so most indigenous tribal minority and marginalised children are not provided with appropriate mother tongue based multilingual education MLE that would enable them to succeed in school and society In this book experts from around the world ask why this is and show how it can be done The book discusses general principles and challenges in depth and presents case studies from Canada and the USA northern Europe Peru Africa India Nepal and elsewhere in Asia Analysis by leading scholars in the field shows the importance of building on local experience Sharing local solutions globally can lead to better theory and to action for more social justice and equality through education <u>Trip of the Tonque</u> Elizabeth Little, 2012-02-28 Documents the author's travels throughout the country where she witnesses firsthand the nation's many cultures and languages and what they say about who we are individually socially and politically Algonquian and Iroquoian Linguistics ,2001
