Education and Political Development in Tanganyika and Egypt Kenyon Neal Griffin, 1968 Education and Political Development Shemuel Noah Eisenstadt, 1964 **Conservatism and American Political Development** Brian J. Glenn, Steven M. Teles, 2009-02-26 Through a sustained historical analysis of three of the most important issues in American politics Social Security environmental regulation and federal education policy Conservatism and American Political Development explores how conservatives have helped shape U S domestic policy and how the growth of the American state has in turn shaped conservatism Featuring leading scholars of American political development the book traces the evolution of each issue over the course of three epochs the New Deal the Great Society era and the Reagan era Throughout it emphasizes the ironic role of conservatism in the expansion of the American state As conservatives increased their presence in the federal apparatus they were frequently co opted into maintaining or even expanding regulatory and public fiscal power At times conservatives also came to accept the existence of the liberal state but attempted to use it to achieve conservative policy ends Despite conservatives power in U S politics and governance over the last quarter century big government remains As Conservatism and American Political Development shows conservatism has not only helped shape the state but has been shaped by it as well The Growth of Education and Political Development in India, 1898-1920 Education and Political Development Aparna Basu, 1974 **Education for Political Development: National Integration in Israel** Ira David Silverman, 1966 **Conflict in Education Planning** William James Platt, 1962 *Education, Democracy and Development* Clive Harber, Vusi Mncube, 2012-05-14 Education is often seen as the key agency in international development

and poverty reduction. Frequently the emphasis is on the economic and social role of education in development. This book on the other hand is unusual in explicitly examining the political role of education in development. In particular it sets out the theories, evidence and arguments concerning the potential and actual relationships between education and democracy and critically explores the contradictory role of formal education in both supporting and hindering democratic political development. A key theme of the book is the importance of considering the type and nature of the education actually provided and experienced, what goes on inside the black box of education. Currently in developing countries and elsewhere this is often at odds with democratic principles but the book also provides many examples of successful democratic practice in schools in developing countries as well as discussing a detailed case study of South Africa where democratic change in education is a key aspect of the policy agenda.

Conflicts in Education Planning William James Platt, 1962

Social Capital in Political Development in Iran Ali Abolali Aghdaci, 2020-10-21. Aghdaci argues that Iran has not yet sustained political development due to negligence by its leaders resulting in a decline of public trust in post revolutionary governments. He takes a statistical look at the reduction of social capital in Iran and suggests ways this trend can be reversed and political development can. The role of social capital in political development and their relevance to Hashemi Khatami and Mahmoud Ahmadinejad's presidencies has been relatively neglected in the scholarship. In *Social Capital in Political Development in Iran* Ali Abolali Aghdaci fills that void by discussing how states can create social development platforms and proposing an integrated model of social capital and political development. Aghdaci argues that the path to peak political development has not yet been sustained by any government in Iran because in all post revolutionary governments the people's trust in the government has fallen sharply due to the negligence and practices of the leaders in the political system. This book takes a statistical look at the reduction of social capital in Iran and suggests ways this trend can be reversed and political development can be maximized.
