Education In Zambia Catholic Perspectives:

Education in Zambia Brendan Patrick Carmody, 1999 This book fills a gap by providing a much needed history of Catholic missionary education in Zambia It traces the contribution of the Catholic Church s contribution to the development of education in Zambia over more than a century providing more widely an overview of Zambia s educational history and insights into the development of the country s political history It articulates the perspectives of missionaries and officials of education departments of Zambian students lecturers and administrators The study further vividly illustrates how the mission school generated creative tension between modernity and education and Christian conversion and analyses the psychological impacts of religious conversion and how these have been played out in Zambia It argues that in the circumstances Catholic schools have been instruments of liberation in Zambia but duly recognises the ambiguities of modernisation and the need to respect and acknowledge the riches of local tradition The Emergence of Teacher Education in Zambia Brendan P.

Carmody, 2020-05-01 This book offers a detailed history of the development of teacher education in Zambia Also analysed is the nature of education offered at different times and how the teacher and his/her education reflect this arguing the need for a fundamentally new philosophy of education and a mode of teacher formation in line with it **Citizenship Education and**

Social Development in Zambia Ali A. Abdi, Edward Shizha, Lee Ellis, 2010-06-01 Zambia the butterfly shaped central African country has a population of about 11 million people and as other Sub Saharan African countries has been trying to democratize since the early 1990s Clearly though the promise of political reform did not fulfill the expectations of the public and with about 60 percent of the population living below the poverty line many Zambians are no longer confident that more open political systems can improve their lives But the problem may not be inherent in the political process itself and could be found more in the apparent disconnection between people s needs and the way the country s affairs are run It is with respect to these and related issues that this book emphasizes the crucial relationship between education and political participation and specifically highlights citizenship education as essential for Zambia s social development Social development which should comprise inter alia the economic political and cultural wellbeing of societies can be enhanced by citizenship education which focuses on elevating people s understanding of their rights and responsibilities vis vis government institutions structures and functions Indeed it is the centrality of the political component in people s lives especially its relationship with public policy and public programs that should underline the important role of citizenship education In describing these issues the book analyzes the role of the media women s groups and youth in enhancing the political educational and by extension the economic lives of the Zambian people The book should interest students and scholars of Zambian as well as African education politics and social development It should also be useful for policy makers institutional managers and both public and para public leaders in Zambia and elsewhere in the continent International Handbook of Catholic Education Gerald Grace, Joseph, SJ O'Keefe, 2007-12-07 Knowledge of Catholic educational scholarship and research has been largely confined

to specific national settings Now is the time to bring together this scholarship This is the first international handbook on Catholic educational scholarship and research The unifying theme of the Handbook is Catholic Education challenges and responses in a number of international settings In addition to analyzing the largest faith based educational system worldwide the book also critically examines contemporary issues such as church state relations and the impact of secularization and globalization

The religious life of the Tonga-speaking peoples of southern Zambia is examined over the last century in the sense of how they have thought about the nature of their world, the meaning of their own lives, and the sources of good and evil in which their cosmology and society have been transformed. The twelve chapters cover Time, Space, and Language; Basic Themes; Tonga Religious Vocabulary and its Referents; the Vocabulary of Shrines and Substance; Homestead and Bush Ritual; Communities and Actors; Rituals of the Life Course; Death and its Rituals; Evil and Witchcraft; and Christianity and Tonga Experience. The author has drawn on dairies by research assistants and field notes and research of fellow anthropologists but above all from her own interaction with Tonga people since 1946. The older people gave first-hand memories of Ndebele and Lozi raids. David Livingstone encamped near their villages in 1856 and 1862; the arrival of colonial administrators, traders, missionaries, and European and Indian settlers; and in some cases the end of colonial rule. Their experience and that of their children, grandchildren, and great grandchildren provides the basis for understanding Tonga religious experience.
