The People Gerhard Hirschfeld, No society at any time under any conditions has provided enduring freedom security justice or self determination for all of its citizens The problems that confront the human species today are so large so complex and so urgent that an effective solution requires a framework that considers mankind as a whole The alternative according to Gerhard Hirschfeld is global disaster These observations provide both the motivation and the focus for The People a book that proposes a radical departure from traditional perceptions of people in society Hirschfeld argues that the basic relationship between people leaders and the middle class has always been fixed in human society and that the people in all societies and at all times have been subject to domination and exploitation To change this condition to assure that the

people attain dignity and basic human rights he proposes the creation of a much broader social framework The work traces the development of the three sectors of society leaders distinguished by natural talents and the ability to furnish ideas design and organization second the people insecure dependent defenseless and exploited and third the middle class playing the part of an equalizer or moderator to the other two classes The heart of the book is a careful long range analysis of these three great historical forces leading to specific proposals of principles and procedures upon which the creation of a mankind oriented society might be based Whether used as a text or as a manifesto and call to action this exceptional work is a unique contribution that will ensure its appeal to diverse audiences Gerhard Hirschfeld was born in Berlin Germany After World War I he went to South America there combining work in the export business with a study of the cultures of the native peoples He published many articles papers and monographs and is the author of An Essay on Mankind Kenneth E Boulding 1910 1993 was president of many scholarly associations including the American Economic Association the Society for General Systems Research and the American Association for the Advancement of Science He authored numerous books including Towards a New Economics Critical Essays on Ecology Distribution and Other Themes Three Faces of Power and The World as a Total System

Ideas for the Philosophy of the History of Mankind Johann Gottfried Herder, 2024-02-27 One of the most important works of the Enlightenment in the first new unabridged English translation in more than two centuries Published in four volumes between 1784 and 1791 Herder's Ideas for the Philosophy of the History of Mankind is one of the most important works of the Enlightenment a bold original and encyclopedic synthesis of and contribution to the era's philosophical debates over nature history culture and the very meaning of human experience This is the first new unabridged English translation of the Ideas in more than two centuries Gregory Martin Moore's lively modern English text extensive introduction and commentary bring this neglected masterpiece back to life The Ideas which engages with many of the leading thinkers of the eighteenth century such as Montesquieu Kant Gibbon Ferguson Buffon and Rousseau is many things at once an inquiry into the unity and purpose of history a reflection on human nature and the place of humans in the cosmic order an examination of what was beginning to be called culture and a narrative of cultural progress across time among different peoples Along the way Herder considers a dizzying variety of topics including the formation of the earth and solar system species change race the immortality of the soul the establishment of society and the pursuit of happiness Above all the Ideas is an anthropology what Alexander Pope had termed an essay on man pervaded by an appropriately humane spirit A fresh and much needed modern translation of the complete Ideas this volume reintroduces English readers to a classic of Enlightenment thought

Rethinking Secondary Education Scherto Gill, Garrett Thomson, 2014-01-14 This is a timely accessible and engaging book of considerable intellectual stature bold imagination and practical wisdom Not only does it develop penetrating elegant analyses of what is wrong with current state controlled and alternative approaches to contemporary education it also offers imaginative practical suggestions for a more fulfilling human centred alternative

Professor Michael Fielding Institute of Education University of London UK With great sensitivity and force and in wonderfully clear prose Scherto Gill and Garrett Thomson explore some fundamental questions about what we want from our education system and what we can expect from it It is highly recommended for all who are interested in education whether from a more theoretical point of view or from a more practical point of view Professor Adrian W Moore Faculty of Philosophy University of Oxford UK Could we have a system of secondary education that provides alternatives to the current mainstream schooling and its emphasis on exams learning outcomes and the delivery of a fixed curriculum How could such a system focus on both human and educational values How could secondary education combine the personal development of students with good academic standards In response to these questions Gill and Thomson have written a new cutting edge text aimed at all those involved in the study of education or teacher training *Rethinking Secondary Education* explores debates and critiques new and alternative approaches to teaching young people today The book discusses a human centred approach to curriculum pedagogy assessment and the culture of schools and colleges It is grounded in theory and empirical research discussing the need for a curriculum for the future bridging a gap between mainstream and alternative education It also offers practical guidance on how these ideas can be put into practice making it an ideal resource for trainee teachers experienced practitioners and students of education alike Key features of the text A balanced approach comparing and contrasting both traditional and alternative approaches to education Strong grounding in theory and research The inclusion of young people s perspectives and voices on their education and on being an adolescent Links to practice showing how the theory and research can actually be put into practice to bring about change

The Educational Significance of Human and Non-Human Animal Interactions Suzanne Rice,A. G. Rud,2016-04-29 *The Educational Significance of Human and Non Human Animal Interactions* explores human animal non human animal interactions from different disciplinary perspectives from education policy to philosophy of education and ecopedagogy The authors refute the idea of anthropocentrism the belief that human beings are the central or most significant species on the planet through an ethical investigation into animal and human interactions and real life examples of humans and animals living and learning together In doing so Rice and Rud outline the idea that interactions between animals and humans are educationally significant and vital in the classroom

workers through experiential learning in their organizations and press By situating his work amongst broader political and educational movements occurring in Latin America in an era of imperialism the text also demonstrates the progressive nature of Recabarren's work and maps the development of his philosophy amid Socialist Marxist and Communist movements Making an important contribution to our understanding of the aims and value of adult education in light of neoliberalism today this text will be of interest to scholars researchers activists and post graduate students with an interest in education social movements and Latin America The text also addresses key issues raised in studies of Recabarren and the history of education in Chile

On the Sustainable Development of African Countries Ebes Aziegbe-Esho, 2025-02-03 Despite Africa's vast and diverse natural resources the developmental challenges plaguing the continent still remain Indeed a common factor that seems to bind all African countries together is developmental problems and challenges From North Africa to Southern Africa across West Africa through to Central and East Africa African countries especially those in Sub Saharan Africa are faced with the same or similar developmental challenges Many reasons have been offered for Africa's developmental challenges Amongst developmental economists the reasons range from geographical historical cultural and tribal factors to institutional factors The unfavourable geographical landscape its colonial and other peculiar histories the huge diversity in culture and tribe that seem to hinder efforts at unity and lack of good governance and the institutions of quality governance have all been given as reasons for the inability of the continent to make good developmental progress This book offers a strategic human capital approach as a pathway to the sustainable development of African countries The book synthesizes different knowledge domains on human capital and presents ways on how human capital can be strategically developed and accumulated by African countries for sustainable development The book highlights how the continent's growing youthful population can be strategically harnessed into human capital for sustainable development Unlike other books on human capital and Africa's development that rely on a single disciplinary perspective usually from economics this book takes a multi disciplinary and inter disciplinary approach The book draws from theories and studies of human capital in economics the originating discipline of the concept strategic management entrepreneurship and Strategic Human Resources Management Thus it is able to present the discuss and recommendations from a holistic integration of the concept of human capital The book also presents case studies of three countries Singapore Finland and Canada that have successfully made strategic use of human capital in their national development in different ways another unique feature of the book Lessons on national human capital development are drawn from each case study Another unique feature of the book is its integration of the various global human capital indices available for a comprehensive understanding of the indices their components and utility for countries Finally the book is replete with many generic and specific recommendations on how human capital can be developed by various stake holders in Africa A whole chapter is dedicated to generic strategic approaches to human capital development that can be adopted by African countries and indeed by all countries as they can be applied by other countries

The generic approaches are cumulatively drawn from resource based theory RBT transaction cost economics and human capital theory Another chapter is also dedicated to more specific recommendations on human capital development and accumulation **Social Theory for Teacher Education Research** Kathleen Nolan,Jennifer Tupper,2019-09-05

Traditionally teacher education research theory and practice have had a technical rational focus on productions of knowledge skills performance and accountability Such a focus serves to re produce current educational systems instead of noticing and critiquing the wider modes of domination that permeate schools and school systems In Social Theory for Teacher Education Research Kathleen Nolan Jennifer Tupper and the contributors make arguments for drawing on social theories to inform research in teacher education research that moves the agenda beyond technical rational concerns toward building a critically reflexive stance for noticing and unpacking the socio political contexts of schooling The theories discussed include Actor Network Theory ANT Cultural Historical Activity Theory CHAT and la didactique du plurilinguisme and social theorists covered include Barad Bernstein Bourdieu Braidotti Deleuze Foucault Heidegger and Nussbaum The chapters in this book make explicit how innovative social theory driven research can challenge and change teacher education practices and the learning experiences of students *A New Education for a New Economy: From Human Capital to Human Flourishing* Tal

Gilead,2024-06-03 Providing an in depth novel analysis of education s role in today s economy by scrutinizing its theoretical underpinnings this volume critiques the suitability of the current dominant economic framework for education and for shaping educational policymaking worldwide Critically examining the history and philosophy that underpin our present societal understanding of the link between economics and education the book argues for an urgent redefining of education s role in the economy based on intellectual foundations that significantly differ from our current dominant conceptions Across seven chapters the book posits that the adoption of a new philosophical framework the reshaping of economic and educational aims and the adjustment of our educational system are each necessary to better promote human flourishing Ultimately providing a platform to entirely reconsider the idea that the primary aim of education is to serve the economic system in particular economic growth this book will appeal to scholars researchers and postgraduate students studying educational policy the philosophy of education and the history of education more broadly Education policymakers and academics studying education and the economy may also find this book of interest **Theory of International Physical Education and Sports Studies for the Achievement of Peace** Noriaki Osada,2010 Noriaki Osada teacher and

philosopher wrote the Theory of International Physical Education and Sports Studies for the Achievement of Peace with three bold intentions in mind to awaken the physical education and sports scholars of the world to their social nationalistic and global responsibilities to promote the study of physical education and sports as a study of peace independent from other academic fields and to affirm the value of such study As demonstrated in the special atmosphere of the ancient and ever popular Olympic Games Osada believes that it is the physical education and sports scholars of the world who will through

physical education and sports research create national theories that will lead to peaceful societies and peaceful nations Mr Osada looks forward to the day when such sports terms as fair play and team spirit become the language of international relations Now a resident of New York City the author believes that with the establishment of physical education and sports studies for the achievement of peace we in the United States will leave our mark in human history About the Author Noriaki Osada was born in Kyoto Japan on March 19 1949 He has a bachelor s degree from Osaka Physical Education College and an M A from National Osaka Education College He also studied philosophy at Kyoto University as an auditing student Mr Osada continues his work in international physical education and sports studies as the founder of Olympic Education for people around the world is a lifetime member of ICHPERSD International Council for Health Physical Education Recreation Sports Dance and is also a member of AAHPERD American Alliance for Health Physical Education Recreation and Dance
