Educational Freedom In Urban Americahc2004:

Educational Freedom in Urban America David F. Salisbury, Casey Lartigue, 2004 This book offers a prescription for reform that includes freedom of choice among public and private schools

Liberation and Freedom in an Urban Learning Community Walter Norman Watts, 1973

The One Best System David B. Tyack, 1974 The One Best System presents a major new interpretation of what actually happened in the development of one of America's most influential institutions. At the same time it is a narrative in which the participants themselves speak out: farm children and factory workers, frontier teachers and city superintendents, black parents and elite reformers. And it encompasses both the achievements and the failures of the system: the successful assimilation of immigrants, racism and class bias, the opportunities offered to some, the injustices perpetuated for others. David Tyack has placed his colorful, wide-ranging view of history within a broad new framework drawn from the most recent work in history, sociology and political science. He looks at the politics and inertia, the ideologies and power struggles that formed the basis of our present educational system. Using a variety of social perspectives and methods of analysis, Tyack illuminates for all readers the change from village to urban ways of thinking and acting over the course of more than one hundred years.

We Want to Do More Than Survive Bettina L. Love, 2019-02-19 Winner of the 2020 Society of Professors of Education Outstanding Book Award. Drawing on personal stories, research and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and researching in urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom, not merely reform, teachers, parents and community leaders must approach education with the imagination, determination, boldness and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin and Fannie Lou Hamer, *We Want to Do More Than Survive* introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice.

City Schools and the American Dream 2 Pedro A. Noguera, Esa Syeed, 2020 Over a decade ago the first edition of *City Schools and the American Dream* debuted just as reformers were gearing up to make sweeping changes in urban education. Despite their rhetoric and disruptive actions, urban schools continue to face many challenges. What went wrong and is there hope for future change? More than a new edition, this sequel to the original has been completely re-written to include insights from new research, account for recent demographic trends and discuss emerging political realities. While

much recent small schools research discusses the benefits of smallness very little of this research demonstrates or acknowledges the various ways in which communities have created small schools that have established the necessary conditions to make them sustainable culturally relevant and linked to social justice while greatly impacting the improved academic achievement of their students Therefore the focus of this book is to advance the school as radical sanctuary concept as described through the history curricula and experiences of urban youth and their teachers in two small urban high schools This book is important for those educationists who wish to deepen their understanding of small school reform and its implications for urban education **Urban, Social, and Educational Issues** Barry Persky,1976 **What**

Freedom in New York Schools? American Civil Liberties Union. Committee on Academic Freedom,1934 Schools of Our Own Worth Kamili Hayes,2019-12-15 As battles over school desegregation helped define a generation of civil rights activism in the United States a less heralded yet equally important movement emerged in Chicago Following World War II an unprecedented number of African Americans looked beyond the issue of racial integration by creating their own schools This golden age of private education gave African Americans unparalleled autonomy to avoid discriminatory public schools and to teach their children in the best ways they saw fit In Schools of Our Own Worth Kamili Hayes recounts how a diverse contingent of educators nuns and political activists embraced institution building as the most effective means to attain quality education He chronicles the extraordinary measures they employed to secure what many in the United States took for granted Even as the golden age came to an end it foreshadowed the complex and sometimes controversial reform efforts of the twenty first century Schools of Our Own makes a fascinating addition to scholarly debates about education segregation African American history and Chicago still relevant in contemporary debates about the fate of American public schooling
