Impacts of Study Abroad on Higher Education Development Nobuko Kayashima, Miki Sugimura, Kazuo Kuroda, Yuto Kitamura, 2024-08-10 This open access book is an exceptional contribution to the burgeoning fields of higher education development and higher education internationalization as it empirically examines the impact of the study abroad experiences of faculty members on individual and institutional development The research and its outcomes presented here utilize results from a large scale survey and interviews of faculty at ten leading universities in Malaysia Indonesia Vietnam and Cambodia The analyses show that the study abroad experiences of faculty members impact not only improvements in research quality and development of

educational programs but also serve as the foundation for international activities at the university crucially important in today's higher education landscape. On the other hand, the research reveals the rapid development of higher education at the local and regional levels including the development of graduate programs for faculty training in the home country leading to increasing rates of study abroad within Southeast Asia. Through the analyses presented, this book offers a new understanding of higher education development and internationalization in Southeast Asia by examining the impact of study abroad on the academic profession, higher education institutions, and the higher education sector.

DEVELOPMENT OF EDUCATION IN HYDERABAD KARNATAKA REGION Dr. Shridhar Boranna, 2023-12-02 One of the most important ingredients of socio-economic development that has attracted the attention of the planners, policy makers and leaders in the recent past is education. It is an established fact that education is an important catalyst of socio-economic transformation. In the advanced industrial societies of the world, education is provided by the states as a matter of right to all citizens. 1 The role of education was recognised as vital in arousing an awakening among the Indian masses even in the pre-independence era. Its contribution in breaking the shackles of slavery cannot be undermined as far as it helped in the growth of an enlightened intelligentsia which carried forward not only the movement for independence but also a relentless struggle for socio-economic reforms. After independence, our planners, policy makers and leaders placed immense faith in education as an important means of socio-economic transformation and modernization. Since the attainment of independence in 1947, Central and State governments of India very rightly embarked on a crusade against ignorance by expanding the facilities for education at all levels. 2 The number of schools and of students attending them began to increase by leaps and bounds all over the country. There is no denying the fact that India has made tremendous progress in the field of education, especially after independence. But it may be mentioned here that our present education system is not without maladies and inadequacies.

The book looks at how outdoor education has been transformed into an increasingly global field where established and influenced practices have been introduced into modernising and democratising nations. The book contains contributions from across Europe with authors from the UK, Germany, Finland, Sweden, Slovenia, Poland, Norway and the Czech Republic. function and organisation of outdoor education around the globe The Changing World of Outdoor Learning in Europe will be of great interest to academics researchers and postgraduate students in the fields of outdoor education leadership and recreation and outdoor sport environmental and leisure studies It should also be essential reading for those involved in outdoor organisations in Europe and worldwide
