schooling One challenge of these settings therefore is to change the way education is offered in order to better engage these students Much of the onus for this changed approach is on the staff teachers youth workers and other support staff Therefore the purpose of this book is to examine different aspects of the work of staff in these settings Several common threads run through the chapters in this book highlighting core aspects of the work of staff in these settings A strong sense of commitment to working with and for young people from marginalised backgrounds Validation of the relational and emotional nature of education as a fundamentally people centred enterprise The importance of explicit attention to critical reflection on staff members own positionality assumptions and identity Collegiality as a crucially affirming part of school culture for staff These elements are pertinent to educational settings everywhere The chapters in this book serve as a reminder of what really counts for our young people and their schooling The chapters in this book were originally published as a special issue of *Teaching Education* Alternative Educational Futures in the United States and in Europe: Methods, Issues and Policy
