Contemporary Perspectives on Play in Early Childhood Education Olivia Saracho, Bernard Spodek, 2003-02-01 *Play, Learning, and Children's Development* Mariane

Hedegaard, Marilyn Fleeer, 2013-04-22 This book explores the dynamics in children's everyday lives as they move between

school and the family with particular consideration of how children's motives change in response to new challenges. Professors Mariane Hedegaard and Marilyn Flier follow four children, two from Australia and two from Denmark, over a twelve-month period. Using these case studies, they show how children's everyday activities, play, and the demands of both family and educational contexts influence their learning and development. The authors contribute to a sociocultural theory formulation that includes the child's perspective in cultural and historical contexts. Their approach yields insights that transcend specific nationalities, cultures, and socioeconomic situations. The analysis shows not just how children's family life shapes their experiences in school but how schools influence and shape their lives at home. *The Original Learning Approach* Suzanne Axelsson, 2022-12-27 Weave a tapestry of play and learning in your early childhood education practices. The Original Learning Approach is a new reflective practice inspired by Reggio Emilia that allows children to learn and play naturally and at their own pace and can be applied to any pedagogical method, philosophy, or context. Influenced by the Reggio Emilia Approach and Anji Play, the Original Learning Approach facilitates observation, imitation, and practice for learning through play. By incorporating wonder, curiosity, joy, knowledge, imagination, interaction, risk, time, reflection, and listening into children's play, this teaching lens will help early childhood professionals nurture continuous, lifelong learners. With questions, reflections, and stories of practice, the Original Learning Approach will help early childhood educators create a range of inclusive types of play and play experiences focused on interacting with people, materials, nature, the indoors, time, and the children themselves. Cultivate learning in your program that allows children to learn naturally and at their own pace. **The Educator-journal**, 1912
